Before I could see ^{him} Absolution was a family

they heard read & how many letter that was

me to trial & tell what cause & why is it that
I wrote these letters then if I fail to come then
they could proceed to with the trial as

PROSPECTUS

The development of the Birmingham District is bound to increase the numerical strength, the earning capacity and the business enterprise of its colored population. Their surplus earnings must be concentrated and used to the best advantage in safe investments or else be frittered away and the various businesses handicapped by the lack of proper banking facilities which are absolutely necessary to safe and profitable expansion.

To increase the present facilities which are admittedly inadequate and anticipate the needs of the future it is proposed to organize a bank upon the following basis:

Capital Stock to be \$25,000.00 divided into 250 shares of \$100.00 each. An allowance of one share only to each individual until \$15,000.00 of the capital stock is received in bonafide subscription.

Subscribers for stock may pay for the same in cash or make a cash payment of \$5.00 per share, the balance to be secured by notes payable at such times as suits the convenience of the subscriber provided that the full amount is paid by November 1, 1909.

Funds secured by payment of subscriptions are to be held in trust by a Board properly bonded who shall deposit same on interest until the bank is ready to open for business.

If the proposed bank is not ready to open for business within 18 months from date of subscription any subscriber may at their option withdraw the amount to their credit with the accrued interest.

It is expressly understood that the by-laws of the proposed bank shall stipulate that all salaried officers and the committee that passes on loans shall be prohibited from borrowing any of the funds of the bank.

Men of large experience assert that investment in bank stock when the investor is satisfied that the business will be conducted with integrity and ability in a growing community, offers the very best chance for a large increase in value.

With the opportunities presented coupled with judicious management we see no reason why stock in the proposed bank should not double in value in a few years.

Board of Trustees bonded to hold in trust the funds raised by subscription to the capital stock of proposed bank:
