#### CHAPTER II. THE TRIAL

Thus Court of Assiss for — et Garonne opened on the fit hot of day with this main formalities. On that day, and in hot and fully with the small formalities. On that day, and in how and following, a couple of many wire beaut, and the scenard, which in both instances has the extraordinary good lock to get off, foit as if they were now indeed guilty of a the adjoint in this stopping the way for the continuouscent of that " gfaire (fomked)," which accupied mee's in the other contance of exerc other train.

The orderated pleader, M. Juka Das Brasses, had accucatized for the defensing and it had been optional, in consenence of a decree obtained from the Court of Cassalion, for the trial to take place in Translams, but the family of M. ambool hoped for a frimally verified at the hands of a local erg, and line how offsers automatised on the reserve to this indeviated affairs now averified its desired in Negret. This is private tokegraph wires of the Preference work head in metaots communication with the military depice of the eighborhood.

A very small portion of the hall in the Palace of Justice was above available for the public, but free meight o'clock in far morning a crowd of persons, principally laking, person of the state of the state in front of M. he premier Printfer, was a promoti-babt of the hear state of the premier for the state of the state state of the state of the state of the state of the state state of the state of the state of the state of the state state of the state of the state of the state of the state state of the state of the state of the state of the state state of the state state of the state state of the state state of the stat

The President being seated, the Preserver-Vérical and is Avocat-Général took their places to watch the case on elail of the presecution. A jury was sworm in, and public necess rose to its highest point when the accused appeared at the bar.

The grafficr on chord then procedured that the case of Jenus Maises Combound had been seen up by the Court de Cossellors to the present ranins. He was accured of outpaths homicide with premeditation, under the following encountrances— "On the 7th of January last, at serem in the materinglaceness Garsialles, Laborer, had peased the door of Cambourfutable, and had observed the door to be open. Seeing no one near, he looked in and entered, without, however, spreining the door any wider. In the half darks and al the appear and of the stable, be any the body of a num hamping by a repofrom the rafters. It proved to be that of Cambourfu serrant Reger Surdan. The man was dead. This hinds were access of the the abieve the ground, was a heap of fagets and billest of flow-out. Of these faw had been moved, and has a of first other. It was been the source of the stable, being when do not seen it the abieve the ground, was a heap of fagets and bla

as to attend his servator, and had then and always shows then every known. Of the events of the 6th January in been every known in the events of the 6th January in the server has been as the server have and the first service worlds. Night party in his away have, say first, a project of evening, charged has serve have, say first, and as have a worlds. Night party in his away have, say first, and the first and always of his description first in the server and the any to his description first in the server worlds. Night party in the server have description of the built at the Preference on the contended M. Hypertyne enty hot he contail second and the morning of the bill, for the M. Landelle were immunitably summoned by Cambon to see second if the Gaster, Hand often near Magne dramk, of had heard Cambond is wy that "were the Garoure to run windy. Beard world certainly some dark as and description.

The same concourse of people continued to throng the constitution of 157 witnesses called for this remarkable trial was exhausted.

When the last one had been dismissed the President rose, and demanded the most unbroken allence for the Procurentforciently research.

That officient event whe ground, pointed out the leasily nature of the locality, and the impossibility, owing, to the cools's absence, of making the leasily of the primour lat beyond eleren r.x. Did Camboil returns as that herr? Did he, finding the house described, out the mannee (if it wave only from from of firs) the serves with a book described if devetor and the server of the server of the serve of the round of the server of the server of the serve of the round of the server of the server of the server of the round of the server of the server of the server of the round of the server of the server of the server of the round of the server of the server of the server of the round of the server of the server of the server of the round of the server of the server of the server of the round of the server of the server of the server of the represent of the server of the server of the server of the represent of the server of the server of the server of the represent of the server of the server of the server of the server in the different tengths for the defiber servers. The Presenmitting this crimes, and then went over the to stimony of the feature of a great mation, and you wend not went that is should be said of you. A reach server to do a lower. Your mission the server, a round and wend heat is should be reader of a dead serverit and do a living matter on the server main server of the first of a living matter of the server of a dead serverit and a living matter of the server of a dead serverit and a living matter of the server of the server of the first first server of the server of the server of the server of the defiber of the server of the server of the server of a dead serverit and of a living matter of the server of the server of the first server of the se

down in column silence. The junior connect for the defense them rose.

"I will set," be said, "comment on the last world the have faller from the Processer-foliarial perhaps he alread repeate of them, for he sarely knows that before a French gury, as block Justice bereaft, all ment are equal. My elien has how arrested under circumstances which are diffing but in its on molt evidence, or rather on sorth want of evidence that you are asked become han? I may man of evidence for although 157 witnesses have been examined before you no one fort has been gutkneed from them which brings home errines to the pressure."

M. Summa there are repeated to the cancer of his cloretty to his life of honorable industry, to a leisner spectri in hundable persuits, to his literality, generating and the life, till Camboul, ao lashy portrayed as an example arrange, arrange hose senchoin in hand, was transformed into the enseiner (either for whom M. Buchtain challenged) as welly the justice, but the administion of the coart. "Gentleman," he added, "I neither sets to sity your pitt, not the spin your hands." My client has no need of these, the adminest and having and despress placeter. Livers his first in your hands." A sully, or rather many sallies, of appingent followed on these works, and the hall had to be cleared before here are only be restared. So great was the turnoit both works and comsensity with the crowd and employment of the previous day, The Advocate General space of the precedings in an adrems which was, with a few alterations, only a typetition of the of the Provener-Général; the argument moving round a a stelle. The doces of the palane of justice remained emped by an anyr mob, whose cannow rouse to frenzy when a way known that the celebrated Johns Dow Because had guent the clearing speech for the defause. Joint Cande empiritor and the the celebrated Johns Dow Because the guent the clearing speech for the defause. Joint Cande empiritor the spectra of the spectra of the spectra area planel whom they feel that move than a life to a statistic constraint out the poly segurity making the default on the membry and munical hasts with which the case had been demonstraint.

Within the space of cose fortnight had the investigation fore the Japp d'Instruction becom mails and Cambool been manded helfore the chamber of "Miss vs. forwards," This regulity seems to helicary," continued, M. Der Bresse, to the single or to the vassible length proceeding of another to the single or to the vassible length proceeding of another of the second second second second second second second the second secon

The President summed up very briefly, and sent the jury a consider of their verifict. They were absent ar hour and quarter.

" What, M, the Foreman of the jury, and even the result I your deliberations?" "On our conscience we consider the ac-

used, on the first count of assaultation, Guilty-on the cound count of premodifation, Not Guilty."

The presence, just before tering and in had expressed in imaken gain in obtaining a favorable sentrator, and when formed by the President of the varieties of the jury he aggreed like a man whe has received a sharp and coulden solve. The court was among the single state of the maintee outset at variety and deal with a state of the maintee outset at variety and deal with the single state of the maintee of the law --hard labor for the was then also not.

The news openal like wild-free-blass and error make formalize beam in the strength of the blass of the forminance presenting to the prison and to the randoms of the inform bat X count is a defective garriest of theory, it would break risk to transf the produce to experiment, and as it ends and to transf the produce the experiment of the of high full at host over a discreted family a break of channel field at host over a discrete family a break of channel field to transphare magnetures.

In the course of the following weak Cambool was statistify enjoyed by train to Bondmann. In the source of the next reck a curator was appointed to his workfly goods in the source closed, contast received their fees, prefects and pensinets wards are arear, the prior of herein fell before its preeff of an nonnially abendiant harrent, the visitage was apcounting, and the "Affaire Cambool" was apparently

tempercentre as a land address summittee white the first device it is not it is van annemmende to be bety and themph it had use yr found a teman, M. Georgne Landelle had left for Name. Hypolyte still langered in torm. So governal was the belief is M. Cambon's moreover, that Hypolyte run a fair chance of being specific through the access of commissemin feit for the distance of his family. He had always the same prevapture heims of his family. He had always the same run he had his profusion, his spaniste, his good books, and the good washes of his conside, who stress no easyrt to show their sums of his morits that, for the moment, all their puresense of his merits that, for the moment, all their puresense of his arrest many eigens male of Government folared at the spring with the stress of the show the visco at the expense of the public.

At regarded Léonet Dural, the prospect was not so bright, for war some to be left framilies, for in efficient nore days his foster-forwher would pion has regiment and sail for Algeria, and his only hope of a compating in file was to be derived from work. He was as was more said before, a clock at the Profectors, holding a subscription piakes in the archive department, and drawing a small safery, indirectly from the flowerement. He waves to continue in these line be ingift ranses, and drawing a small safery, indirectly from the flowrement. He waves to continue in these line is an ingift ranses, and drawing a small safery, indirectly from the flowwing and the same to be an end of the same the same of the same of the same to be an end of the same of the same with the Landellies, and with their wrongs: but natural that his espinions should have residue at bias very enforcement, when have the test the before throwing up his place and trying the mathematic theorem of the began the same wave. But any rate same before throwing up his place and trying have a best to be for the same test and provides, but any rate same before throwing up his place and trying have a best to be for the same test and provides, but any rate same before throwing up his place and trying have a best to be before throwing up his place and trying more on the running ther thank, has placebase and premises, have nord on the run may the same throwing. For that, has the same ranker, but Hispolyte. They were fast friends, but they were bad Hispolyte. They were fast friends, but they were bad hispon ther than they perhaps imagined wine the talked were running ther thank on the test of the inter these there and the test for mathem labor. Lebone was sovertain, timid, and deproming. Hispolyte, bleened with more blinety, seemed allow is contemption at and any expression with here.

"Well is us is both emigrate," he said ence. "I will re: the world we will arrange something for yos, and yos will make goar fortane. One never goes so far as when do does not know where doe is going. Some great man one will that. I don't know who-the Confortion, or Richelian er Napoleon L, se may be our Emperator of Is-bilay, whi knowly but, it is all one, it is true. Bot, more cher, you is idea of remonstrain your office and going as a clerk is ever friend Remant is a regary that exampt one. If will are a dream, and, belien may it will be knowly to be a startion manufaction of the strue of the star of the star is a dream, and, belien may it will be knowly down in Mogent. Fu m manufactions friends will be marked down in Mogent. Fu interchange it is on the firstheam your they start as not in down and the start of the start of the start of start of his own head you will now have a start of the down and head and will be any the start of the start instal, and hith first of a regressing will find out you are installed and hith first is not of the start is main the that you have a structure to a start of the start instant, will have a your the start of the start instand, and hith first new no your fact, while you, or nearching, will not find that you have one saw more in you reaching will not start that you have one saw and a sailor that your flaws a structure to reach a start of the structure as a structure to a start of the start of the structure as a structure. The start is not start when a sailor that your flaws a structure to reach as a start of the structure as the structure the start of the start of the start of the structure as the start of the start of the start of the start integring his elesymmeter, or your over, devotion." " Is in performance the start of the start of the start of the start integring his elesymmeter as a start of the start of the start integring his elesymmeter as a start of the start of the start integring his elesymmeter as a start of the start of the start of the start integring his

"Nyr, it is seeina," replied the soldier, as they walked together on this Shading adversion to the termes which averlings the town, and which, from the church and concret of the Carrowith, beint these shows the cell of an old reclass, has retained the same of the Hermitage. Linese looked possible. It was all the same gametable backness in such that the solutions of the problem before line, so the disentantly for the solution of the problem before line, so the disentantly on est of the feature in the chiral transmission of the problem before line, so the disentantly one at off feetures for an one-transfer line in the M. Natart's herity was concetening the lot graveline to find the thermose the more than the lot graveline to find the more for any important of the problem before the solution. M. Natart's herity was noted any the lot for the solution of the problem before the solution of the soluti

"In the meantime," continued Hippolyte, "I leave, and simulations is shall be, at least, so far forgotten as not to commit you to any line of article." "My eleckship is, after all, a very nominal and indirect tie to the administration," added Léonce, "and no one has as yet presumed on its influencing my feelings."

A set - maximum yest. You are not yet one-and-territy, and you have no today but by the meth-fielding you will have net, and you will be asked for it. What you have to conder is this, whether you with to fermain in this place, ware has when you acquire a tote rou will be expected to give it; hat to give it has one way is to decers your employer, to the to give it has one way is to decers your employer, to the to fit he other is its outrage your convictions and mo."

other year may see me more free in choose, will give me those common conductation of industry match homesty without which 1 may as well go to the hulks at dece; and at this moment, fore and angry as 1 am. I do not feel compromised." "No, you are not "volo are not workened on the atthes adde

for, socially, you are not of sufficient importance." Leonce full almost nettied at this blant speech, and anevered that mersily he hoyed he was, and he again efficied, should Hippolyte demand it, to break with his employers and leare Negent.

"Nos" replied his footer-brukker, "take a year to thick of it; a deal of water will yeak below the bridge of Sk. Cloud before that, and as long as year stand committed to a one, "East source insectionary," he would usy --"find view," and "East source insectionary, he would usy --"find view," and his?" and Hopsylet, breaking from his firefood, was source in sector among the crows, and basing in the amiles of Mass. Anionach this predicted woman in Normet.

"Ah, Malazin," he such taking from her her parasol and er prover-book. "I see that we poor mortals have no great bace with you. With what has the Père Marroihis been lling those adorable ears to-day?"

"Ab, Madame, then at least you looked for a por \_\_\_\_\_

like me, and I thank two for your charits." Mue, Avlowed minled, solved all her regular white tech as she took another turn on the terrace. She and, in truth, no objection that the mean aniform of the benterate should be seen beside her, for Hippovite was another tech not only amounting. but her must be here of the size, varing off, not only amounting but here are of the size, varing

to the sympathy feit for M. Cambon's trumerited distresses. "This poor man," said Mnn. Aubanel, " that poor mani-What a fate! Life there must be worse than purgetary; worse than the torments with which the Pöre Marveille trustand are show as demand that at the Nicheme."

"Does Madame believe in the paradise and the purgetory d the priorita?"

"I wire term to be into another the sectors of some old anchored, "I believe them to be the pictures of some old anchored, like our friend of the Hermitage, here. He invested them, because, poor begger, he could not know the tree pictures the true hell," and Hippolyte delivered, this with a killing share under Mrst. Annual's intrased.

"What, Monsieur, are those?" she asked with an air of efined simplicity that really did her credit. "Paralue, Madame, is the society of the woman whom based is averaging works in he securited from

her." Mms. Anhanel laoghed. "No one would believe you," sko said, "if you were to preach this creed. We know that for mon that would be a purgatory of six months' duration, a paralise of less than three."

"Ah, ab, Madame, what you have said is very maintows." "What you have said is shocking." "Not at all: in France is frame and is diable have their

he nature of them to be short."

" Women preserving, and that end in soling." " Parlou me, Monsieur, they end in a long black stick, and a bad smell of sulphur."

<sup>44</sup> Precisely what Lary, the deril, if he is not the surface of a filtenone, yet passevess hissaelf of the Mackutel relies if them. It is thus, Madame, that a man freix when he area his country, whing it to obtain 3 and a wrong, and his initrees, owing her summitting less than a memory.<sup>45</sup> <sup>44</sup> I an ato survy,<sup>75</sup> and Muss, Achaead, whose vanify init I an ato survy,<sup>75</sup> and Muss, Achaead, whose vanify in-

lined her to appropriate the last part of this speces. "I am proud, Madame, to have at least your regrets to

Jast spring. He consisted by saying that be hoped his with would during his absence, be content with his benne in the south of France, and make beread happy with his people, its whose good

It was a terrible moment for fain. Size lored here sinter parsionatory, and hardly chose to have not hardle of shared even by her bashward. All the hopes of mannihilating, of the two and hoppy years that were been as the second state was parieti, and revive all that was avered in their part, were basined by the decision. Strem is many privations, and from the increased decision, from the many privations, and from the increased decision and the many privations, and from the increased decision and the many privations, and from the increased decision and distance in all the ports. All these drawhacks abowild now intraction assert: "I cannot eased rom there, your happings would be in bad based." This beneft proceed to be desided to be the second of the term of the second the second from the second second the two the second the second the term happings would be in bad based." This beneft proceed to donitable temper. Would also, if this overture of passes was registery, and passer the younger, the waker, the more horing, and the more local to keep, the out of the second from the increases desired, and there the younger, the waker, the more horing, and the more local to deve the young the outer darkness of lonelinness and semantion. It elds.

Juit's inside estimated from the distress. A child was been which enriched early for three hears, and the poor childless mother came slowly bank to 15%, recovering to face two separaions that seems to how wave than death. Captain the Monteany had declosed Lady Corew's edite, and she had not writen again, and Perre was now locating on a direct portages of two years' errise. The fright was doubted for the Marine status declosed in Julie's mind the dupped of war and portions effect decrease to heared for closely, and she triad not writen decrease to heared for the other wise hand portions of Hed of him, but in the former of the relation with how inter, figure the interact of the other wave with how inter, figure for him, but in the former of her infinit. There parting was a heart-breaking one. Julie, too weak to have been bereford. The would my: "I're for me; keep my place warm for me in my home. Nourish the good of futher train feance. (year and eas): part for me, "he added it jamo from fail, yad thes can be was headed in down fails not futher train feance. (year and eas): part for me, "he added it jamo from failing addition on the was headed in the area failed in the reak and been changed Julie.

<sup>11</sup> I do not need, "be answered, "mesther indeed do you, for I have only protected you; and now you must take all i have and all i am into your keeping. Your finality, Jaha, if you were to make any, would be my brack's brack; your moble and coursepons life will be the sailor's star."

They are ident together on the edge of the soft fore itility, and when he roos to  $g_0$ , and he iffered her face up to bis over, it was as calm, if nearly as white, as in death. He timed her head, and Julie caught only a few of the works that he breached over it in less than amiliek voice (correcting about the accomplishing model of "to coloued experime, O Dien Noter Phys."-would also goi into a habit of other separing to hereaffy, and then Captain de Monteser piecked up his little autor's cap, with its gilt hand, which had falles at their feet, and he walked down-starts to the boat.

That night the Arelians weighed her anchors, cleared on of Onerborg, and atoid down channel. She was a fits are frigute, commissioned for the first time, heavily equipped bott, like many Franch mesod war, also was encombered by the transaction of troops, for site and grant of a regiment or beard, whose destination, like her own, was the Mexican shore.

When the Archivas was pitching and rolling on ner way acress the Atlantic, Julie forced herself to find strength for her formers, and to summon her father in-law to meet her, which he did in Paris. The grace and gravity of his greeting avoid her much of the pain and emotion she had dreated; his character as it unfolded itself was scorething of a study to her, and they ware Friends as well as relations by the time that they reached (thermal currieven). We will not seary the reader with the details of Julia's first months there. They were monotonous, it is react bet from months there. They were monotonous, it is react bet to be had datase to perform, and monotony of the kond, if it is the search of the separation from her sitter, the fact they is fully explore any physical search of the banger for the fully explore any physical search of the banger for party to being the search of the search of the banger for the search of the separation from her sitter, the search of lady Carew's side and was was terrible; but his letters areas, if lady Carew's side and search of the search of the banger for search of the search of the search is and forward process which her made for her anneed lett, and balact, with Jeann's atoling, of fill the grants of the search and a search of the propagations to Jeanne's matrices. M. the Binness man face, kind, and to Itlefford, and John for the mathem was praining a stellar of the search of the search of the was praining and the search of a search of the search or galaxies the search of t

iri whom accident had hrought to her honses, and much her recier in the dialect of the province. More remained at future Learenques not one month but three. Indeed, and do not return home till the Federal of Calculateds (Unratuma), ad by find time her friendsing with Mune, de Monteury was rry well formed, if sont suffy commendal.

the transformed into Munic. Edunand de Beiman, with a good transe, and the prectitest little apartment possible in the ne Neuvo des Matheman. Jeannes had also a chair at the environment of the second second second second second in the little of Protostant charities in Praster. Nice was very many harpy fulles wenans, not quille appreciete to prevent of print relations, but emphasically what her same call one's, and what is, more, about the way wery mouth and wery long and the little wenans. The saw very mouth and wery long and the second second second second and very long and the second second second second second second second second prints there are related to delicity, how relations and second second there are related to delicity, how relations and second second there are related to delicity, how relations and second seco

all hences with it. Her barries was still very heavy her operinges great, here pair serve desp, hur is a size wandered dou't through the bedgerows of allounds, into the meadow arries with passes dowers, not fragmat already with a horrerd herin, has felt how many consolutions food provides for numble and patient herer, -arry, even for these own coverage and hoppes retriev with the glory and eviptemencement of the memory.

#### CHAPTER XIV.

PLACTION BY CNITTERAL ACTIVAL

Exercise had comes, but never was there an Exarcr in Negretise in Endry to being goodenal along with it: there was at best at "space low-induce house primatelia", and they were few and the between. Winter Hargering a little in the lass of Spring is the sharpe of a blee, had exercised off the deputy of Negretis is a very angeine : the deputy was dond, then where is dipatif its who was to be the man? The two parties in the town, be Libersha and the party of Administrations. of a manyor, where their last factor-fight each terrible spinole that had when the last deputy the many the terrible spinole that had not still be and they forget methods."

Hardly was the breath out of the defancet deputy, than Mfadiest, the prefect, left his destified to folgraph the news a band-quarters, and to unamous to his breakfast-table two or have undicated addisavents on whom he could rely.

The room is which they assembled was a pleasant one, armed by the sum which porced into the two windows that soled into the Made, and further warmed by a five of blasage large, for the wind, the same that had proved faul to the spenty, was still cetting, and the Prifette was shally by natre and halfs.

"What a loss we have just enstained," mill M. Bernihl, the "mailer des requétes," as he scated himself benide her. "Very sad in traith: but eat a little of this smelette oue organs; you will find it excellent."

"Never was anything more in prestane," said

er green to inthe appetite, and upon whose brow sat a cloud hich neither Módoc nor Mochs could dispel. "Hus admirable Staffitfique, too, left unfinished," middel a

"We must look to you then, M. Suchet, to finish it in a

ner, and when the survant left the room, he handed the noie berow the table to M. Duplost, saving as he did so, "M. le diputs, J driving yool lendih." Nothing could be note satisficatory, and a tolegram went up to Pairs that in the intermediate of the obtained is overseened.

venture to offer our congratulations to both parties." "Mighty pertury," and M. Nalad, when into wife result this partagraph out to fain at breakfast; "but what will M. Hippojett any to it, Maignal" Marie put up her Hig, and colored in aligned; and it was as well for Lonco's self-time that he did hold see all the contempt implied in her alience: for a woman who lores, or has lored, however much also may confisse any what is done against, hermit, segment to be offers a terrible and

coased to regret. Liebence, as a user must, count dox know it, and yet his checks hurned with something not anilis will contempt, as on that afternoon he again formed part of the workly circle at the Pröfenstrum. "Will you cater one your new derives me Monday, M. Do will' mail issumater, in Liebence, finding the inhead the observe

crowded saloon. "On Monday, Monsienz, at your service," he answered and went downstairs, accompanied by the canon and the

doctor, who almost seemed to have him in charge. This descent from undependence to even intro doce begins, Lencor found it as facile as that to the "draad" hake " tiself. The master was controctes and kind, and him of draws were very inplicit, all the more say, which is not draws were very ender the second second second second second second events of the opposition, at least from very delatable and. After a dimense to M. Tupben, the first public case Lences has ever been at, he began to feel more at lowes and tone; he began to feel more at lower and ever here at the Prifet was the particular draws and tone; and finally, one Similar algorithm the Treffecturent, when the Prifet was the prifet as the law of the Prifet charged each whether part to well, he has four mapoleons to the bases. He sends only hope it would not happen often and he did no tapeling the issue to motion for an impoleing the specify the issue to motion the tronseens. If an english have preferred specifing the mousy on the tronseens a data expected send and heir.

#### CHAPTER XV.

A GTHE LIFE IN THE PROVINCES. "Oxers the decision is sore, I hope, dura Marie, that you arents will spare you to use for a little." So wrote Mess in the sore of the middle of Mar. "Tell Mars. Nataled," so abded, "that though I have not Jenne's chann on you, so hengh I have not even had the pleasare of knowing her, you hope the will grant me this faver, and add to it that o

father also joins." The proposal was accepted without hesitation, and Mms. Nadard desired a supert cap to be constrained, for the double event of the counting electric and of har while to the children. Marie throught the cap too large, but the artist had faithfully tried to express, by means of guans and bows of ribbon, the abundance of the landlisity loyaire, and Marwis objections being overnuled, loyaity and the ribbons carried the day.

The eventhal morning came when the restance the wave was declared, and upward. This was a fact for which the Prefer cared a good deal; and then Benard was utterly quashed—a fact for which be cared a revy great deal more. There had been nch excitoment, discussion, and eating and drinking at the cold, and Marie was delighted to see the moment arrive kiew in might leave the lower, and exciting the screete of Negenia r tim cool arcades and researchered prilos of Chiloso r time cool arcades and researchered prilos of Chiloso is writely, and you may make an much rose-water as real at stear you come. I trust, however, that you will below a writer, and you may make an much rose-water as real at stear you come. I trust, however, that you will below a write a quantity of agreemband succession and the stars, the stear you come. I trust, concerns, enclasses, and I write a quantity of agreemband water as real trying we be more important arcs to the scalar of the stars, the the borner with him core accounts, enclasses, and plans, it the borner with him core accounts, our the superiors, and the scalar part of the scalar of the stars, the parts of the harrow (which, it seems, the building superiors) parts of the harrow (which, it seems, the building superiors) in bore days count of which, it seems, the building superiors in inspectation, their explanation makes everything darks which a been days count is the weight and measures, gat parts and descriptions."

It is sometimes a good thing, you see, to be a formet's glieter, Maigue, and Aer faither, when he are we this letter; it Mme. Nashard in her magnetity of a farmor's wife was truly at. During the bars of area for spent at the children in the war remaining population in English exhibitions of the war is contained an assist of complete bwill-content over lengt or contained an assist of complete bwill-content over length remains when the operation is the same or contained many states of the same and biometers are a source of the same blies manufacture of the same transition over the posterior bars, indeed, it was a third and free-linths of assorege mission indeed, its way as the formet and the samerage mission indeed.

Jalie in her turn second to purale Mme. Xulant. "Silo is very pretry," the lacelisty decirated to Marro, very pretry, and prefetcify point, and ker aircing in lake as of a choic of angels. But the is a surgire prevenpoint for her age, which she table us is warry and a choic farr, king got of two yields. Here the base is and the mother, king got of two yields. Here, the base is been a twother, king got of two yields. Here, the base is been a then she base here the first of the two preventions and then she base here the surger factment. Preven might have a the she base here the surger factment of the surger of the stars and that the eldest son of a family gets simust all the two marks.

<sup>44</sup> AbJ *Mining Disol*, 7 what a perfectly herrible plan.", <sup>44</sup> Sho paylow of the Charris to day rary belowingly, and of mestally your failed, and with theory and the fore-map had perpendent and the state of the state of the state of the point leaders, and with theory with her block in a blighty matical state of mining as to her visit, and us to the bosten tils whom March was certainly not an uniting to be left.

As also had traveled out with her motion to the elatoma anexy recollections had crowed into Marie wind of her rat journey thicker, of that terrible September day when describ had been married. Things had also dead gravity more leave come against edills her users thought an one way conone to prevents recovering from a time of grant means direct come again of gravidit worder that she was still allow, an whole woman in body, well, and spirit, if cortainly not yes are been associated.

There is a French surpling that may when they first mest the each other, "A menous ward (" but that with women the section is "A fore-max way for  $t^{p,p}$  and in the prevent instance one two ways, of each other. Of Maric's grief the passion and ded out, but with it much of the correct, and some of the tenderness of here character, and the result was a minime fine. Julie was more than six months other in basis, for the orgen in adjoint of the low of the complement that had week in additional document, but way pleasant is withness. fine. Julie was more than six months other in basis, for the even in additional document to the model with the law week in additional bloces to the model document, when had bails are stop was quicker, her much level document ended by a data ber moorning, and her correspondent model enders and

To the first morning after her arrival Marie was startled at mearly hour by hearing the lond boom of the organ, and enlescending to the gallery to find the help of the house branching salmody to a clean of two initie Protestant unidees, whom Marie

 Garasiar, to turn over the ground reaphly for the first time, inner, to dress it for the second time, making a loss deep forrow. The index a contense iron apake, used for some ground, the mapses is a lose, not the days a large two-prompt fork.

Degrafter in which is may be indexed her father-in-law to farms and harm, where the ancks full alternatory note its herm being being in to be tenant and into that which beinged to the handlord; and the contents of the latter also alternard are tarted of in creating wayons to the granary of the chicken. Then the visitage cause, and then when the heat began to be fare re-which their the successful and in

diminisi, the figs grew black below the southers wall and in the society define, and such multipervisers as had not been already stripped of their bases for the sequences (silkworms changed their color, and mapped out all the champage country with long level lease of gold.

I shart a layer was fired in a work, when it was absolutely necessary for Mine. Nadard to have her stangther at home. There was to be a great function in the neighborhood: a new charrow was to be consecuted and upcared at Ville Franche co the Derologne. A town about two hours from Negent be rail, and great excitement prevailed in the department, as the function of the excitons of Jamin, the layer pool of the distance of the exciton of Jamin, the layer pool of the distance of the exciton of Jamin, the layer pool of the circumon, whene pen was always at the service of every good or charitable work. The whole circry of the discosent was using a "gradued" shad been arranged for the occasion, and Gagtin, the Vicas-General, newly rourned from one of his missions in Alveria, was to breach.

The "Hotel do Petit St, Jean " was to be creweded with these dignitizing, and Maries carnitement about it was only damped by her regret at leaving the childran, which had been ice happ hences for an many months. Her dignits press again, however, when Mano, Julie proposed to return to Negari with her, to ryund two degree liners, and so he present at this coremopy. The weather was perfect, the health of the di Sauer confident, and hale on once explicitle strening tenard the end of October Mano. Xudard not only any her danghter proture, but half the gloy of creering the Registic distant of Childran Leavingness as a guest of the "Hotel du Petit St, Jean."

#### CHAPTER XVL

"THE CONSECRATION

MARTE could harrly have believed with how keen a sense of plearance she woke on the following micrims. Drawing baselity, she ran to Mms. de Montenarés rison to assist her Bur. Jolie was already rison, and, taking Mariek hards, sho seemod as usual to feel how heat to please the girl and put her at her case.

"It is long, else esfend," she and, "since I have had sock a holiday as this. Those my father will not miss me too misch when I thus play transit for two days. But this weather farces him as well as us, -soo what a delicious moreing. I take my drawing-book and pencils with me, for somethus us around to make a more the more transfer."

"Yes the rocks at Les Ende are very singular, and Madams wishes it, we can visit the caves. For my part, thick them frighter and dangerous; and I do not wonke invo-genese were asid to be common in the department in old days; for fiving its asche caves people might well come b

"Or feel inwardly like them, which would be were," added Mme. Julio, langhing. "However, the core-men must have had very strange comparisons if the great slabs ury father showed me at Chattens Leavingness are to be believed. The board of me are mixed up there with those of bears and chinoseven. But we will explore the caves, and I long. Mario, you will not so care the character of a long-party, and I fear I have already earned that of a beersing, from waking

"That is better; but have you thought of all you are leaving?" "I believe I have: my parents.--but I must have done so if I had married; many annoyances and many memories

always reviving for me in Negent." "But is it right to cut one's life adrift, to run away from one's post?"

"I was doing nothing at it, and I have both hands an Load it seems. I think I have judged for the best, and Dr Soulis thinks so, and my parents have consended." "Have they? but I wish you had told me of it all before

it access so selfish to have been rapt up in my own happiness and not to have known what must make such a difference fo you." "It is in great part Dr. Sonlid's doing. My parents do

not like it at first, but here is what my father says." An Marie innoled a letter of M. Nadard's to Mme, de Montenay who feit as she read it that it was indeed dictated by a ver unseitlish parent. It ended thus:---

"It is we who are much to bisme for the disturbances of try life. Two, Margua, I had overrindugi there ever, and so both pictured for there a too ambitions future. Aftail the hope of man are very true; we are discognostical, but these the while we gree old. The main start is a second start how while we gree old, and the ray is eved and bound to hoppy it thisse own way, and the ray is eved and bound MM. Morel and Jacquest all have the tree out and souther to how this we gree old. The second have any to eved and hoppy is this own way, and the way is eved and fourther how if for my part like mether the one nor the disc. The hop will be an but hops to see the form time to time, an well as to hear of thy welfare, for I am an old man now, as well as to hear of the well see the to leave.

SEBASITAN NADAED.

The set of getter may had a year of howpard tending, and prevent of getter may had a year of howpard tending, and any of the bankway profess many finds and the bankway of a statement of the set of the bankway of the bankway and any there is a set of the bankway of the bankway and any there is any set of the bankway of the bankway and any the bankway of the bankway of the bankway of the bankway set of the bankway of the ban

"Yet I wish it had been otherwise," and Mane. Julie; "M. Jaconte is an excellent man, though bat, I am aware, a man likely to take a young girl's fancy; still, as his wife you yound has." Ind an honorable position, and plenty of work, and you wid have been searce home."

"Makings, I could never have been the write of a Protectat patter, and I think M. Jacquot did very ill to think of me as his write; he would lower himself at the wave of his over people, and I should do the same in the eyes of my people; in fast, my parents would never suffer me to marry a Protcentst patter. I can see that Makane's enription is better in some points than my own, but I am the child of the Charde and I perfer to remain in it."

Julis repeated it to her husband, and he shook his head. "I should never have suggested the religious life for a girl like that."

"But show will find this to be a file of normality and of most interference will find this to be a file of restraint, and of most interference and the transmission of restraint, and of most interference and active the antipothesis of the state of the Marin and his sisterial of the continuous, " one thing works in her favor, which is that also has a tray do, and so they will not be in a herry to quarter with her, and if size gais an active service she may do will enough, but given a month of a sedentary file in a religion herma, I should be very server to answer for the consequences; I are she has a temper of her own."

Julie could not deny it, and the prospect of this life for her friend gave her many anxious thoughts, even though Dr. Soulis added the weight of his approxal, and spoke very highly of Marie's capabilities as a nurse.

no was present.

It to her inferiors, her patients or her pupils. A wommer like this, unless she marries a man washy her superior, in fact, one in then thousand, is apt to be discontented, and troublessme, and critical; but there will be no danger as a murse. Thelever she will be invaluable, and very fairly happy. "But how will she get on with the authorities?" "They are not likely to clash with her, and Mademonalh aris will soon be an authority herself, if I do not greatly correctly the is man of the people who will alwars face

the her knowledge." "She tells me you are very kind to her, and that you are

"Yes, I think come meaning er tocation and powers. Her payons have consented to runt her with me, and I think, as my hamily acrease to it, we ill keep her through the summer, and I will look about me clove also processes."

"Dear Madame, I deserve no thanks

will be a real gain to nr; she has, I think a true rotation, and what is, perhaps, more to the purpose, she has a real scalar for nursing, a light firm hand and strep, good health, and good nerves, and she is one of those who will have an illucove on their portents."

a suppose it is occasing I am in Eoglishwoman, and a rotestant, that I dislike it all so much; in fact I have a rejudice against it," said Julie, applogetically.

Dr. Source toward and samiled, "And because you are such happy wife yourself, you, think every other woman abouid married, is it not so?"

"Perhaps; but I pity the purents, and I should have liked into seen for married near them."

"No, she need not have been so."

"You must parties me if I differ from you. She wi make an excellent Sour de Charité; but married, I mus concetly say, that I think she would have been the wron soman in the wrong place."

And many per sockies associate feet number to be the ong man in the wrong place," said Captain de Montenay glung, "Well, something very like it, I fear. No, dear ladr; bet-

r a good nurse, and a reasonably happy woman, than an soliderently happy wite." "She seems theroughly satisfied with her decision."

A not a copy the result will be good chongs to matury even , my fair heretic, and you may trust her to me for the it four or five months."

fee dary stay at Fontainchean. Ne was left alone in the set city, and in Dr. Sonlie's house, with her vocation and a future, and she threw herself into her work. She wasrel at the kindness she received,—at the kindness that is in the world, that often flows in upon its sek and screwing os, like a direct manifestation of the Divise Fifty. And re was not an theoremion experience.

When a main our point of contrasting the determine the torener, when a main our hard bound of the second second second second area that some on hard is will fall summary thieves. Nonarrow that some on hard is will fall summary thieves. Nonour unstartful, will robe and strip line, and leave him half is but then is even a traveler any whether slong the imple highway he has not found many, ohl to many good moritand. That has seen the point of the second has is but then his would have much when the source of the determined in the prigram is able to begin life an exd all hits real wants are emploid. Not only this, and they y of line held to see the the movies in Matter's almoster. all all her real wants are emploid. Not only this, and they y of line held to make the movies in the subsective all some exp act only in strength, but in course y and have been any and have been once robbed and halt face dead, they ready now to be on once robbed and halt face dead, they in early now to be on once robbed and halt face the being three of the dependence. It is almost a seminary with their ready have to be into have and been good to make such their ready now to the interpoint and here model to make such three reverts to the interpoint and here model to make such three so with Maxim, as here pring here your want formed the solution to have here in the hards of the into barris.
