Andrews' Dustless Blackboard Eraser.

PROVED TO BE THE BEST IN THE WORLD.
HANDSOME
AND
DURABLE.

ADVANTAGES.

1. It is made of woven felt, so arranged as to form the rubbing surface of the ends of the fiber.
2. It thus cleans the board more thoroughly, and is longer in wearing out than any other Eraser.
3. By holding the rubbing surface flat against the board, all the dust will be gathered and held.
4. It is easily cleaned by rapping the rubbing surface lightly on a board.

Retail price, \$1.80 per doz. Net price to the trade, \$1.25 per doz.

Munger's Patent Slate Cleaner.

An excellent article, neat and durable. Price per 100, \$2.35 net.

Senate Note and Legal Pads.

This paper is prepared to meet the demand for a cheap article in convenient form for the use of authors, lawyers, schools, and colleges. It is heavy manilla paper, sized and calendered, so that either pen or pencil may be used, and is intended for use in **Examinations, Compositions, Theses, etc.**, and in preparing any writing that is to be copied afterward. For arithmetical and mathematical exercises it is invaluable, as it does not weary the eye as white paper will, and prevents the harsh rattle of slates and pencils.

It will be found the most serviceable article that can be used in making up copy for the printer. It is to be used with a PENCIL, and it will be found to write more freely than any glazed white paper will,—and it does not so weary the eye—though it may be used with INK, too, but the convenience of a pencil commends it as a medium of recording passing thoughts.

For lawyers' use in the Register's office (drafting Abstracts of Title) where ink is prohibited, and for any writing that is to be copied afterward, it will be found invaluable.

Each PAD contains 240 half-sheets, ruled on one side only; FOUR PADS CONTAIN A FULL REAM OF PAPER.

ALPHA DUSTLESS CRAYON.

Bureks! No Dust! No Dirt!

Three grades: Hard (H). Medium (M). Soft (S).

It is dustless, hence the throat and lungs of teachers and scholars are not injured by inhaling the dust, and the eyes of those near the blackboard are not injured by dust, as is often the case when chalk is used. It will not glare the board nor scratch it. It is seven times more durable than the common crayon, and therefore cheaper.

The hands and clothing are not soiled, and work at the board is no longer repulsive.

Any teacher who has felt the inconveniences we have described, will enjoy the entire freedom from them which this crayon affords.
