H'VILLE EDUCATION STUDY COMMITTEE

TABLE XVII
ESTIMATED AVERAGE SALARY
FULL INSTRUCTIONAL STAFF, 1967-68

United States	\$7,597	
Florida	\$7,500	Ranks 20th in Nation, 1st in Region
Huntsville	\$6,200	
Alabama	\$5,900	Ranks 45th in Nation, 9th in Region
Mississippi	\$4,735	Ranks 50th in Nation, 12th in Region

Source: Financial Status of the Public Schools 1968
Data furnished by Huntsville School Administration

Huntsville staff salaries are sufficiently above the Alabama average to allow the Personnel Department to attract teachers to the system. It should be noted, however, that the Alabama rank nationally has decreased from 40th in 1957-58 to the current 45th position. Other states are making greater strides in teacher salaries than Alabama. Of the states comprising the Southeastern Region only South Carolina, Arkansas, and Mississippi have lower average salaries for the instructional staff.¹⁰

d. Conclusions

1. The School Board and Administration are making maximum use of the revenue that is currently being received.
2. The annual current expenditure of only \$300 per pupil puts Huntsville City Schools in such a low position as to cause concern.
3. Teacher salaries must be increased if we are to maintain a high quality education program. Excellent, dedicated teachers are probably a main reason we have a good program today, and these teachers cannot be retained unless we pay

PUBLIC QUESTIONNAIRE (Continued)

30. Are you satisfied with the schools' current physical education program? —Yes. —No.
31. What are your recommendations for improving it?

32. In what grades do you think physical education should be compulsory?
33. Alabama tenure laws make it virtually impossible to discharge a teacher after three years of employment except for unsatisfactory moral conduct. These laws have the advantage of protecting teachers from unfair dismissal through discrimination by their supervisors, and the disadvantage of making it difficult for school officials to replace teachers who become ineffective.
Do you favor replacing the tenure system with a system that would permit school officials to retain or replace teachers more on the basis of the teachers' performance? —Yes. —No.
34. What new facilities does the Huntsville Schools System especially need?

* * *

List and evaluate school organizations in which you participate. Rate them from 1 to 9 (Very Beneficial-9; Helpful-5; Needs improvement-1; Waste of time-0):
35. P.T.A. _____
36. Booster Clubs _____
37. Other (Specify) _____
38. Other (Specify) _____

* * *

39. Do you feel there is a good relationship between teachers and parents in schools with which you are familiar? —Yes. —No.
40. Do you or your family benefit from after-hours use of school buildings, equipment or property? —Yes. —No.
41. Please list additional community needs for these school facilities:

42. What responsibility does the community have toward school personnel?

43. One major difficulty in the operation of Huntsville schools is the lack of a guaranteed income from the City Council to the City Board of Education. School budgets are drafted in the summer using an estimated income from the City. The City budget is adopted in November. Often the amount allocated by the City Council is less than the amount requested and budgeted by the school board.
Would you favor of the earmarking of current City revenues (say, 1/2 of 1c of the existing local sales tax) for education? —Yes. —No.

44. Current school income is inadequate to provide many, if any, additional services or programs beyond those now being offered. The school administration estimates an additional \$1,500,000 annually for five consecutive years would provide your children with the quality education they should have. Additional income must come from one of two sources.
Would you favor and actively support additional STATE-WIDE TAXES specifically for the education system? —Yes. —No.
If your answer is "yes," would you favor additions to the—
A. State income tax: —Yes. —No.
B. State sales tax: —Yes. —No.
C. State property tax: —Yes. —No.
D. Other (Specify) _____ : —Yes. —No.
45. Other than state-wide taxation, here are three possible sources of school revenue for the CITY OF HUNTSVILLE, any one of which would provide the needed \$1,500,000 annually:
(1) Additional 1/4-cent Sales Tax — Estimated cost would be:
• Annual income of \$8000: Approx. 75 cents a month.
• Annual income of \$10,000: Approx. \$1.50 a month.
• Annual income of \$15,000: Approx. \$2 a month.
(2) Additional 7-Mill Ad Valorem (property) Tax— Estimated increase in monthly mortgage payments:
• Residence valued at \$10,000: Add \$1 a month.
• Residence valued at \$15,000: Add \$2 a month.
• Residence valued at \$20,000: Add \$3 a month.
(3) Additional 1 1/2-cent-per-gallon Gasoline Tax—Expert estimates are that this would cost the average driver \$2.85 a month.
Would you favor and actively support additional City taxes specifically for schools? —Yes. —No.
If your answer is "Yes," would you favor an additional—
(A) 1/4-cent sales tax _____
(B) 7-mill ad valorem tax _____
(C) 1 1/2-cent gasoline tax _____
(D) Other (specify) _____

46. What other opinions and suggestions do you want to offer concerning Huntsville Schools?

CURRENT EXPENSES PER PUPIL IN ADA BY SCHOOL DISTRICTS
 LOCAL TAX RECEIPTS ONLY

One purpose of our survey of other school districts in Alabama was to determine what they were doing in the area of local support for their school systems as compared to Huntsville. In all cases we have not considered the 4-mill county and 3-mill district taxes. This is special local support.

NOTES:

- The table above contains a 1966-67 listing, by Alabama school systems, of the current expense per child in ADA. You may have difficulty in reconciling this Alabama data with Alabama's ranking in national statistics, which lists \$403 as the average expenditure per pupil. The difference in amounts is the result of additional items included in the National Education Association statistic of \$403, which are not reflected in these calculations. For instance, when we last inquired at the National Education Association, we were informed that they used the following additional items of expense in calculating current expense per child in ADA: Retirement, Social Security, School Lunch Fund, School Milk Fund, State Department of Education, Free Textbooks, Elementary Teachers' Scholarship Funds, Plans and Surveys, National Defense and State Tenure Commission.
- Systems underlined are separate city school systems within counties that have school systems of their own.
- Source: Calculated by the Alabama Education Association from data contained in 1966-67 Annual Report of State Department of Education.
