The name "CASCADE" is a very familiar one to lovers of fine whiskies in this section of the South.

THESE distinguished firms of Geo. A. Dickel & Co., of Paducah, the makers of this now world famous brand of liquor, have succeeded in producing a beverage which, if drunk as a gentleman drink's water, is as healthful as that beverage which they permit such big, but nature's natural ingredients to enter its composition. None of the chemical jugs given so common in this age among makers of beverages is tolerated or even thought of in connection with the making of Cascade. Should some unfortunate dealer in the Huntsville district use be supplied with Cascade, the makers will be delighted to send beautifully printed matter, giving full information.

REAL ESTATE.

One of the most important things in the business of real estate is the selection of a good location. A good location is one that is in a desirable neighborhood, one that is well-served by public transportation, and one that is close to schools, shopping, and other amenities. A good location is also one that is in a growing area, one that has a bright future, and one that is a true gateway to the world. A good location is one that is a true gateway to success, and it is one that is a true gateway to happiness.
