Hist Notes Book ① 4A7

⑥ through ⑫

Knots: complex symbol embracing several important meanings, all of which are related to the central idea of a tightly closed link. It implies also the symbolism of the spiral + the sigmoid line, idea of infinity - with the manifestation of the infinite. Comparable with the net, rope and plait - expressing binding + fettering

Knot also "magic" - general significance of an enclosure and of protection.

Endless knot - ^{one of} 8 emblems of good luck. (Chinese Buddhism) represents longevity.

"Gordian knot" - Alexander the Great - symbol of the labyrinth, arising out of the chaotic or inextricable tangle of the cords which it was tied.

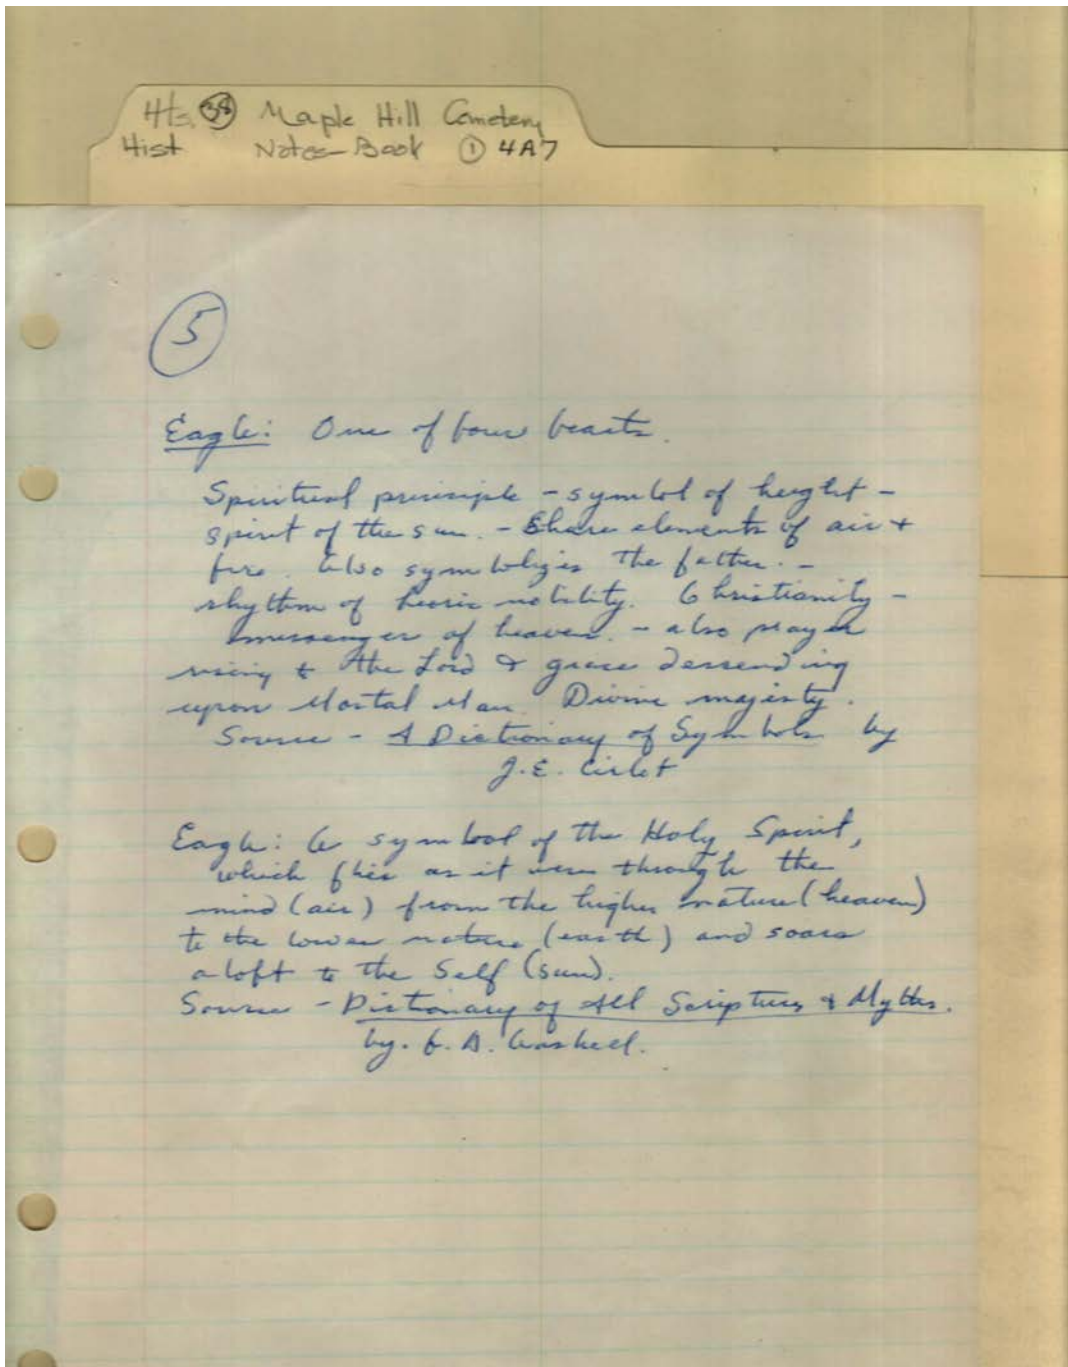

To undo knot - equivalent to finding the "center"

To cut the knot - transfer of pure idea of achievement + victory to the plane of war + of existence.
