Another reason is the farmers either sell or give the 4-H boys a calf or hog from their stock as a 4-H project. This soon develops into another litter or herd.

One beef cattle farm in the community is the J.E. and J.O. Kelly farm. They have 900 acres. 660 of this is in permanent pasture, the rest in semi-permanent and wood lots. On this farm are 583 White Face cattle, the second largest herd in the state. The pastures are supplemented in the winter by three large silos. Each silo is filled with 140 tons of silage grown on the farm. They plant mixed feed and have a machine that goes down the row cuts, chops, and mixes this feed and runs it off into a truck that hauls it to the silo. When I carried my class to see this in operation, they were told that the same process took place in the making of silage as does when their mothers make kraut. They ~~were~~ familiar with kraut making.

This past year four cows dropped eight calves. My class saw these calves as shown in this picture

These cows are some and daughters and descendants of "W Larry Domino 4th". He is a recent addition to the Kelly herd. He was bred by W.H. Whitten of Florence, Alabama. This bull is a half brother of "W

In 1952 another educational building was built consisting of a parson study, library and office for the church secretary, three assembly rooms, with 14 class rooms, an office and two rest rooms. This building is heated by gas.

Recently the Auditorium has been redecorated which included new carpets and pulpit furniture.

The most recent addition has been an asphalt parking area lined off for parallel parking.

We invite ~~the public~~ ^{all former members} to attend our Homecoming Sunday and ~~gather~~ ^{gather} Sunday School. We are striving for 375 Sunday members.
