you need an exception to this rule, please discuss it with one of the research consultants or the archivist who brought you the records.

b. To help ensure your getting the records you want for evening and weekend work, make your request by 3 p.m. (and no later than 4 p.m.). To telephone about advance requests for records, call the research consultants on 963-6411 (Government code 13, ext 36411). If you wish to use additional records from the same group of records you have been using, and have the telephone number of the archivist who has been helping you, please call him first and if he is not available, then the consultant.

c. When, during the evening or on Saturday, you leave a request for additional records, please indicate the date and the time (morning or after 5:15) you will be in to use them.

Reproductions. Reproductions can be made from the records you are using. The research consultants will be glad to discuss the types of reproductions that would best fit your needs and see that the orders are taken.

The Microfilm Research Room is in Room 400, 4th Floor.

Names:

Aerial Photographic
Reproductions

Types:

brochure

aerial photographic reproductions

The Map Information Office, U. S. Geological Survey, Washington, D. C. 20248 maintains records of aerial photographic coverage of the United States and outlying areas, based on reports from Federal and State agencies and commercial companies. From these records, the Map Information Office furnishes data to prospective purchasers on available photography and the agency holding the aerial film.

GEOLOGICAL SURVEY PHOTOGRAPHY

Geological Survey vertical aerial photography is obtained primarily for topographic and geologic mapping. Reproductions from this photography are usually satisfactory for general use. Because reproductions are not stocked, but are custom processed for each order, they cannot be returned for credit or refund.

For photographs of restricted areas, the purchaser must obtain clearance from the appropriate military authorities. Sales offices of the Geological Survey will advise purchasers how to submit application for clearance.

The Survey also uses *low-oblique* photography for some mapping projects. This

specialized type of photography is taken with cameras tilted approximately 20° from the vertical. It is described in detail in a leaflet, "Tilted Low-Oblique Photography," which is available free from Survey sales offices. Prospective purchasers who are not familiar with this photography should study this leaflet before purchasing prints.

River Meander, Virginia

Reproductions of Survey aerial photographs are sold with the understanding that the purchaser will not use them to show, by implication or otherwise, that the Department of the Interior or the Geological Survey endorses any product.

Orders will be filled as quickly as laboratory conditions permit but *official requirements for mapping will be given priority whenever necessary.*

Elly, Minnesota

PRINT SIZES

Contact prints are the same size as aerial negatives, approximately 9 x 9 inches. Date of Roll Print Project Photog. No. No. Symbol

Example A Where the scale of the photography is 1:24,000, the area covered by a contact print is about 12 square miles.

Example B Where the scale of the photography is 1:83,260, the area covered by a contact print is about 81 square miles.

Prints are available with stereoscopic overlap or without such overlap (pictorial coverage). Photographs with stereoscopic overlap, when viewed with a stereoscope, will permit the observer to obtain a mental impression of a 3-dimensional model. Stereoscopic coverage requires about twice as many prints as pictorial photography. Orders for photographs or requests for information should specify which type is needed.

Coverage with stereoscopic overlap Pictorial coverage

Enlargements to an exact ratio or to a specific scale are available. If ratio factors are not furnished by the purchaser, enlargements will be processed in ratios derived from lens focal lengths and flight heights specified in the photographic contract or reported by the contractor. Permissible tolerance in flight height combined with ground relief, shrinkage or expansion of paper caused by atmospheric or other conditions, can cause considerable variation in scale.

Prints are processed only from whole negatives; prints of selected parts of negatives are not available.

Scientist Cliff, Maryland

PHOTOGRAPHY ORDERS

Because many types of reproductions are available, requests should state the purpose for which the photographs are desired and define the specific area of interest by means of a detailed description, sketch, or latitude and longitude position. The size of photographs and type of coverage (pictorial or stereoscopic) should also be specified.

Requests for reproduction of Geological Survey aerial photography for the States and possessions listed below may be sent to the following Regional Headquarters:

Arizona, California, Hawaii, Idaho, Nevada, Oregon, Utah, Washington.

Shipment by parcel post or railway express is prepaid. Extra charges for shipment by Air Express or Airmail, and Special Delivery are paid by the purchaser.

Check, money order, or draft payable to the U.S. Geological Survey must accompany the order. Refund will be made for any part of the order that is not filled.

Beach Ridge, Florida

Photoindexes are available for practically all Geological Survey aerial photography. These show the assemblies of prints in standard quadrangle units (generally 7½-minute units, but in some cases, 15-minute units), so that from the indexes a prospective purchaser can select prints covering areas in which he is interested. Where large areas are involved, photoindexes are essential for selecting prints and should be requested. In addition, photoindexes are available showing high-altitude photography held by the Geological Survey, generally in units of 1' × 2', but sometimes in units of 1' × 1' or 2' × 2'.

Drainage fan diversion, Chile

Diagram showing the overlapping arrangement of 9 × 9-inch exposures on a typical photoindex.

PRICES

Contact prints, enlargements, and transformed prints are mounted and untrimmed. The reproduction will be printed on standard paper stock unless the order specifies other materials such as waterproof (low shrink) paper or stable base film. In most cases similar prices are charged

by other Federal agencies. Prices are subject to revision at any time.

	1 to 25 each	Over 25* each
Contact prints (9 × 9 in.)	\$1.75	\$1.25

Enlargement

Magnification:		
1.5X (14 × 14 in.)	\$3.00	\$2.50
2X (18 × 18 in.)	3.50	3.00
3X (27 × 27 in.)	4.50	3.50
4X (36 × 36 in.)	9.00	8.00

For an intermediate-size enlargement, use the price listed for the next larger size. For example, one 24 × 24-inch enlargement costs \$4.50.

Transformed prints from either convergent or transverse low-oblique photographs

photographs	\$3.50	\$3.00
-------------	--------	--------

Film positives contact printed from aerial negatives

	\$3.00	\$3.00
--	--------	--------

Copy Negatives (one step)

	\$3.00	\$3.00
--	--------	--------

Kelish plates

Contact prints on glass. Specify thickness (0.25 or 0.06 inch) and method of printing (emulsion or through film base)

	\$6.50	\$6.00
--	--------	--------

ER-55 plates

Reductions on glass (11 × 11 cm.)

	\$5.00	\$4.50
--	--------	--------

Photoindexes

7½- & 15-minute quadrangle units (10 × 12-in. sheet)

	\$2.50	
--	--------	--

High-altitude photography (20 × 24-in. sheet)

	\$3.00	
--	--------	--

*Quantity prices apply only to those prints ordered in excess of 25 of the same size. For example, 26 contact prints cost \$45.00 (25 at \$1.75 = \$43.75 + 1 at \$1.25).

As the Nation's principal conservation agency, the Department of the Interior has basic responsibilities for water, fish, wildlife, mineral, land, park, and recreational resources. Indian and Territorial affairs are other major concerns of America's "Department of Natural Resources."

The Department works to assure the wisest choice in managing all our resources so each will make its full contribution to a better United States—now and in the future.

contract

f10) Correspondence / Official Documents

specified services, the Council agrees to pay the Contractor the total sum of Four Hundred One Dollars and Forty Cents (\$401.40) for the specified services and a maximum of Ninety Dollars (\$90.00) for transportation.

It is expressly understood and agreed, that in no event will the total compensation and reimbursement, if any, to be paid hereunder, exceed the maximum sum of Four Hundred One Dollars and Forty Cents (\$401.40) for all services and documented transportation costs.

8. Termination of Contract for Cause. If, through any cause, the Contractor shall fail to fulfill in timely and proper manner his obligations under this Contract, or if the Contractor shall violate any of the covenants, agreements, or stipulations of this Contract, the Council shall thereupon have the right to terminate this Contract by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the Contractor under this Contract shall, at the option of the Council, become its property, and the Contractor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Notwithstanding the above, the Contractor shall not be relieved of liability to the Council for damages sustained by the Council by virtue of any breach of the Contract by the Contractor, and the Council may withhold any payments to the Contractor for the purpose of setoff until such time as the exact amount of damages due the Council from the Contractor is determined.

9. Termination for Convenience of Council. The Council may terminate this Contract at any time by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least fifteen days before the effective date of such termination. In that event, all finished or unfinished documents and other materials as described in Paragraph 8 above, shall, at the option of the Council become its property. If the Contract is terminated by the Council as provided herein, the Contractor will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Contractor covered by this Contract, less payments of compensation previously made: Provided, however, that if less than 60 percent of the services covered by this Contract have been performed upon the effective date of such termination, the Contractor shall be reimbursed (in addition to the above payment) for that portion of the

Types:

contract

f10) Correspondence / Official Documents

actual out-of-pocket expenses (not otherwise reimbursed under this Contract) incurred by the Contractor during the Contract period which are directly attributable to the uncompleted portion of the services covered by this Contract. If this Contract is terminated due to the fault of the Contractor, Paragraph 8 hereof relative to termination shall apply.

10. Changes. The Council may, from time to time, require changes in the scope of the services of the Contractor to be performed hereunder. Such changes, including any increase or decrease in the amount of the Contractor's compensation, which are mutually agreed upon by and between the Council and the Contractor, shall be incorporated in written amendments to this Contract.

11. Equal Employment Opportunity. (a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin. The Contractor shall take affirmative action to ensure that applicants are employed and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such actions shall include, but not be limited to the following: employment, upgrading, demotions, or transfers, recruitment or recruitment advertising; layoffs or terminations; rates of pay or other forms of compensation; selection for training including apprenticeship; and participation in recreational and educational activities. The Contractor agrees to post in conspicuous places available to employees and applicants for employment notices to be provided setting forth the provisions of this non-discrimination clause. The Contractor will in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin. The Contractor will cause the foregoing provisions to be inserted in all sub-contracts for any work covered by this Contract so that such provisions will be binding upon each subcontractor provided that the foregoing provisions shall not apply to contracts or subcontracts for standard commercial supplies or raw materials. (b) The Contractors shall keep such records and submit such reports concerning the racial and ethnic origin of applicants for employment and employees as the Secretary may require. (c) The Contractor agrees to comply with such rules, regulations or guidelines as the Secretary may issue to implement these requirements.

12. Interest of Members of Council and Others. No officer, member, or employee of the Council and no members of its governing body, and no other public official of the governing body of the locality or localities in which the Project is situated or being carried out who exercises any

Types:

contract

f10 Correspondence / Official Documents

functions or responsibilities in the review or approval of the undertaking or carrying out of this Project, shall participate in any decision relating to this Contract which affects his personal interest or the interest of any corporation, partnership, or association in which he is, directly or indirectly interested or have any personal or pecuniary interest, direct or indirect, in this Contract or the proceeds thereof.

13. Assignability. The Contractor shall not assign any interest in this Contract, and shall not transfer any interest in the same (whether by assignment or novation), without the prior written consent of the Council thereto: Provided, however, that claims for money due or to become due to the Contractor from the Council under this Contract may be assigned to a bank, trust company or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to the Council.

14. Interest of Contractor. The Contractor covenants that he presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of services required to be performed under this Contract. The Contractor further covenants that in the performance of this Contract no person having any such interest shall be employed.

15. Findings Confidential. Any reports, information, data, etc., given to or prepared or assembled by the Contractor under this Contract which the Council requests to be kept as confidential shall not be made available to any individual or organization by the Contractor without the prior written approval of the Council.

16. Officials Not To Benefit. No Members of or Delegate to the Congress of the United States of America, and no Resident Commissioner, shall be admitted to any share or part hereof or to any benefit to arise herefrom.

17. Identification of Documents. All reports, maps, and other documents completed as a part of this Contract, other than documents exclusively for internal use within the Council, shall carry the following notation on the front cover or a title page, (or in the case of maps, in the same block) containing the name of the Council:

The preparation of this report, map, document, etc., was financed in part through a Comprehensive planning grant from the Department of Housing and Urban Development, under the provisions of Section 701 of the Housing Act of 1954, as amended, together with the date (month and year)

Types:

contract

f10) Correspondence / Official Documents

the document was prepared and the name of the municipality, metropolitan area, or other planning area concerned.

18. Office Space. The Council hereby agrees to make available without charge to the Contractor, either at the Council's headquarters or in a community or area receiving assistance, his usual place of business for the performance of the services agreed to under this Contract, and the Contractor hereby agrees not to include any charge for such additional space in his fee.

19. Publication, Reproduction and Use of Material. No material produced in whole or in part under this Contract shall be subject to copyright in the United States or in any other country. The Council and HUD shall have unrestricted authority to publish, disclose, distribute and otherwise use, in whole or in part, any reports, data, or other materials prepared under this Contract.

20. Audits and Inspections. At any time during normal business hours and as often as the Council, HUD and/or the Comptroller General of the United States may deem necessary, there shall be made available to the Council, HUD and/or representatives of the Comptroller General for examination all of its records with respect to all matters covered by this Contract and will permit the Council, HUD and/or representatives of the Comptroller General to audit, examine and make excerpts or transcripts from such records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to all matters covered by this Contract.

In witness whereof, the Council and the Contractor have executed as of the date first above written.

and sites (herein called places) in Madison County assigned by the Council.

- c. The Contractor shall complete General Inventory Forms for at least eight historical - architectural places in Madison County assigned by the Council.
- d. The Contractor shall provide the Council all information needed for the completion of National Register of Historic Places Nomination Forms for each place assigned.
- e. The Contractor shall write a brief history of Madison County, Alabama.
- f. The Contractor shall spend a minimum of 17 1/2 days providing the previous services.

4. Data To Be Furnished To Contractor. All information, data, reports, records, and maps as are existing and available from the Council shall be furnished to the Contractor without charge.

The Council shall cooperate with the Contractor in every way possible in the carrying out of the planning work.

5. Time of Performance. The Services of the Contractor are to commence as soon as practicable after the execution of this Contract and shall be undertaken and completed in such sequence as to assure their expeditious completion in the light of the purposes of this Contract, but in any event all of the services required hereunder shall be completed within 143 consecutive calendar days from the date of this Contract.

6. Compensation. The Council agrees to pay the Contractor the total sum of Seven Hundred Two Dollars and Forty Cents (\$702.40) for the specified services. In addition to the compensation provided above, the Council will reimburse the Contractor for travel in connection with the performance of the duties under this Contract, as may be authorized by the Council, the actual cost of transportation by common carrier, or the sum of ten cents per mile if the travel is performed by privately owned automobile, and not to exceed Ninety Dollars (\$90.00). The Contractor agrees to keep a record of expenses for travel which shall be open to inspection by the Council. The Council, however, shall not be liable for any damages arising out of the use of private vehicles, and the Contractor shall hold the Council free from and fully indemnify the Council from such liability.

7. Method of Payment. At the completion of the

Types:

specified services, the Council agrees to pay the Contractor the total sum of Seven Hundred Two Dollars and Forty Cents (\$702.40) for the specified services and a maximum of Ninety Dollars (\$90.00) for transportation.

It is expressly understood and agreed, that in no event will the total compensation and reimbursement, if any, to be paid hereunder, exceed the maximum sum of Seven Hundred Ninety Two Dollars and Forty Cents (\$792.40) for all services and documented transportation costs.

8. Termination of Contract for Cause. If, through any cause, the Contractor shall fail to fulfill in a timely and proper manner his obligations under this Contract, or if the Contractor shall violate any of the covenants, agreements, or stipulations of this Contract, the Council shall thereupon have the right to terminate this Contract by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the Contractor under this Contract shall, at the option of the Council, become its property, and the Contractor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Notwithstanding the above, the Contractor shall not be relieved of liability to the Council for damages sustained by the Council by virtue of any breach of the Contract by the Contractor, and the Council may withhold any payments to the Contractor for the purpose of setoff until such time as the exact amount of damages due the council from the Contractor is determined.

9. Termination for Convenience of Council. The Council may terminate this Contract at any time by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least fifteen days before the effective date of such termination. In that event, all finished or unfinished documents and other materials as described in Paragraph 8 above, shall at the option of the Council become its property. If the Contract is terminated by the Council as provided herein, the Contractor will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Contractor covered by this Contract, less payments of compensation previously made: Provided, however, that if less than 60 percent of the services covered by this Contract have been performed upon the effective date of such termination, the Contractor shall be reimbursed (in addition to the above payment) for that portion of the

specified services, the Council agrees to pay the Contractor the total sum of Five Hundred One Dollars and Seventy Cents (\$501.70) for the specified services and a maximum of Ninety Dollars (\$90.00) for transportation.

It is expressly understood and agreed, that in no event will the total compensation and reimbursement, if any, to be paid hereunder, exceed the maximum sum of Five Hundred Ninety-One Dollars and Seventy Cents (\$591.70) for all services and documented transportation costs.

8. Termination of Contract for Cause. If, through any cause, the Contractor shall fail to fulfill in a timely and proper manner his obligations under this Contract, or if the Contractor shall violate any of the covenants, agreements, or stipulations of this Contract, the Council shall thereupon have the right to terminate this Contract by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the Contractor under this Contract shall, at the option of the Council, become its property, and the Contractor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Notwithstanding the above, the Contractor shall not be relieved of liability to the Council for damages sustained by the Council by virtue of any breach of the Contract by the Contractor, and the Council may withhold any payments to the Contractor for the purpose of setoff until such time as the exact amount of damages due the Council from the Contractor is determined.

9. Termination for Convenience of Council. The Council may terminate this Contract at any time by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least fifteen days before the effective date of such termination. In that event, all finished or unfinished documents and other materials as described in Paragraph 8 above, shall at the option of the Council become its property. If the Contract is terminated by the Council as provided herein, the Contractor will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Contractor covered by this Contract, less payments of compensation previously made: Provided, however, that if less than 60 percent of the services covered by this Contract have been performed upon the effective date of such termination, the Contractor shall be reimbursed (in addition to the above payment) for that portion of the

actual out-of-pocket expenses (not otherwise reimbursed under this Contract) incurred by the Contractor during the Contract period which are directly attributable to the uncompleted portion of the services covered by this Contract. If this Contract is terminated due to the fault of the Contractor, Paragraph 8 hereof relative to termination shall apply.

10. Changes. The Council may, from time to time, require changes in the scope of the services of the Contractor to be performed hereunder. Such changes, including any increase or decrease in the amount of the Contractor's compensation, which are mutually agreed upon by and between the Council and the Contractor, shall be incorporated in written amendments to this Contract.

11. Equal Employment Opportunity. (a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin. The Contractor shall take affirmative action to ensure that applicants are employed and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such actions shall include, but not be limited to the following: employment, upgrading, demotions, or transfers, recruitment or recruitment advertising; layoffs or terminations; rates of pay or other forms of compensation; selection for training including apprenticeship; and participation in recreational and educational activities. The Contractor agrees to post in conspicuous places available to employees and applicants for employment notices to be provided setting forth the provisions of this non-discrimination clause. The Contractor will in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin. The Contractor will cause the foregoing provisions to be inserted in all sub-contracts for any work covered by this Contract so that such provisions will be binding upon each subcontractor provided that the foregoing provisions shall not apply to contracts or subcontracts for standard commercial supplies or raw materials. (b) The Contractors shall keep such records and submit such reports concerning the racial and ethnic origin of applicants for employment and employees as the Secretary may require. (c) The Contractor agrees to comply with such rules, regulations or guidelines as the Secretary may issue to implement these requirements.

12. Interest of Members of Council and Others. No officer, member, or employee of the Council and no members of its governing body, and no other public official of the governing body of the locality or localities in which the Project is situated or being carried out who exercises any

functions or responsibilities in the review or approval of the undertaking or carrying out of this Project, shall participate in any decision relating to this Contract which affects his personal interest or the interest of any corporation, partnership, or association in which he is, directly or indirectly interested or have any personal or pecuniary interest, direct or indirect, in this Contract or the proceeds thereof.

13. Assignability. The Contractor shall not assign any interest in this Contract, and shall not transfer any interest in the same (whether by assignment or novation), without the prior written consent of the Council thereto: Provided, however, that claims for money due or to become due to the Contractor from the Council under this Contract may be assigned to a bank, trust company or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to the Council.

14. Interest of Contractor. The Contractor covenants that he presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of services required to be performed under this Contract. The Contractor further covenants that in the performance of this Contract no person having any such interest shall be employed.

15. Findings Confidential. Any reports, information, data, etc., given to or prepared or assembled by the Contractor under this Contract which the Council requests to be kept as confidential shall not be made available to any individual or organization by the Contractor without the prior written approval of the Council.

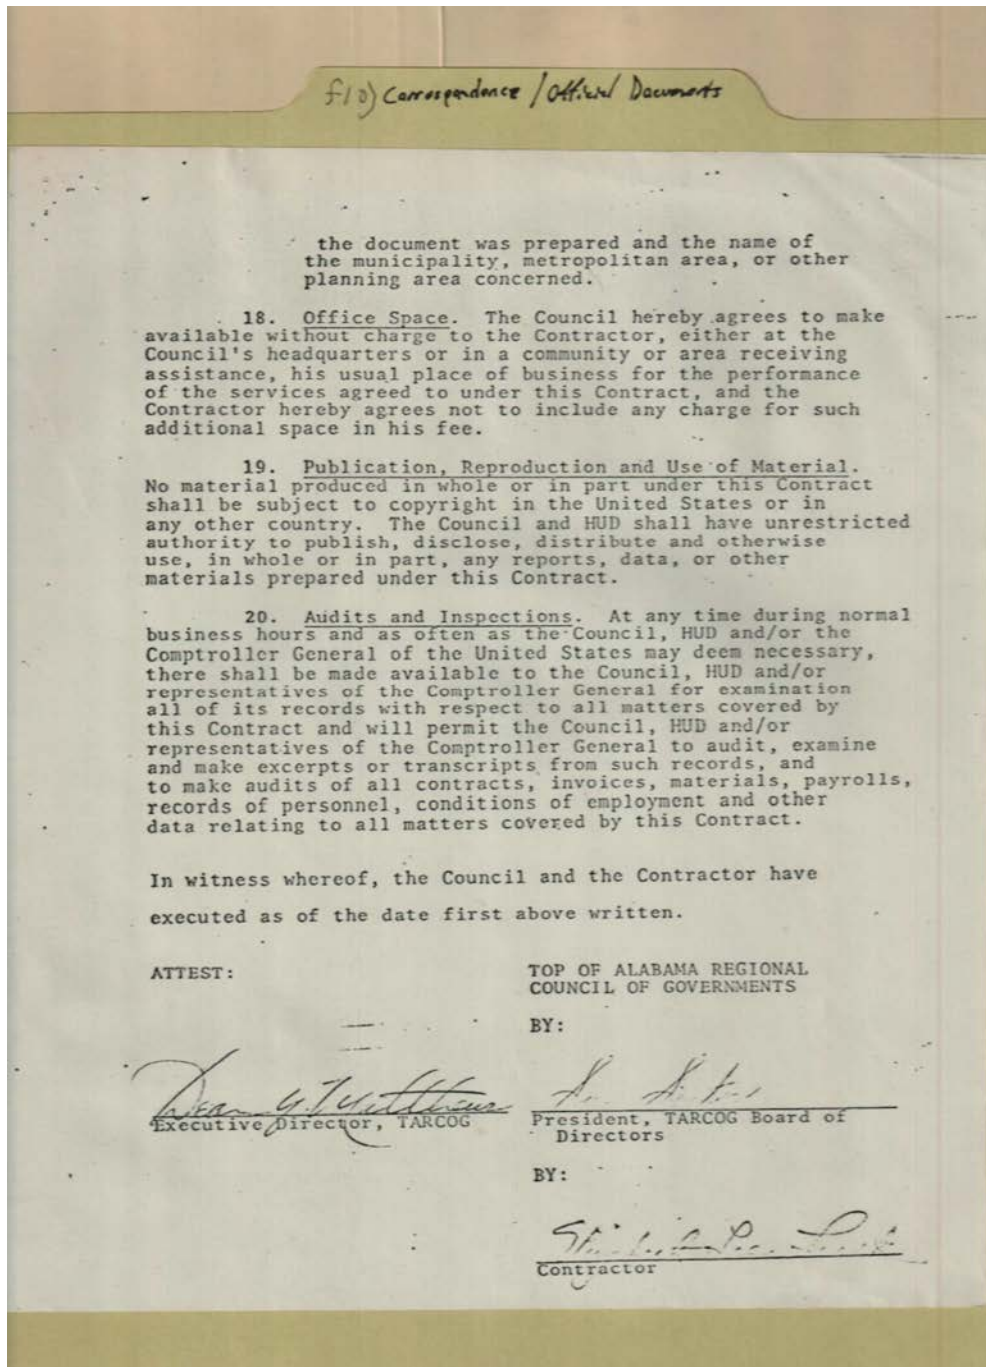

16. Officials Not To Benefit. No Members of or Delegate to the Congress of the United States of America, and no Resident Commissioner, shall be admitted to any share or part hereof or to any benefit to arise herefrom.

17. Identification of Documents. All reports, maps, and other documents completed as a part of this Contract, other than documents exclusively for internal use within the Council, shall carry the following notation on the front cover or a title page, (or in the case of maps, in the same block) containing the name of the Council:

The preparation of this report, map, document, etc., was financed in part through a Comprehensive planning grant from the Department of Housing and Urban Development, under the provisions of Section 701 of the Housing Act of 1954, as amended, together with the date (month and year)

and sites (herein called places) in Jackson County assigned by the Council.

- c. The Contractor shall complete General Inventory Forms for at least six historical architectural places in Jackson County assigned by the Council.
- d. The Contractor shall provide the Council all information needed for the completion of National Register of Historic Places Nomination Forms for each place assigned.
- e. The Contractor shall write a brief history of Jackson County, Alabama.
- f. The Contractor shall spend a minimum of 13 days providing the previous services.

4. Data To Be Furnished To Contractor. All information, data, reports, records, and maps as are existing and available from the Council shall be furnished to the Contractor without charge.

The Council shall cooperate with the Contractor in every way possible in the carrying out of the planning work.

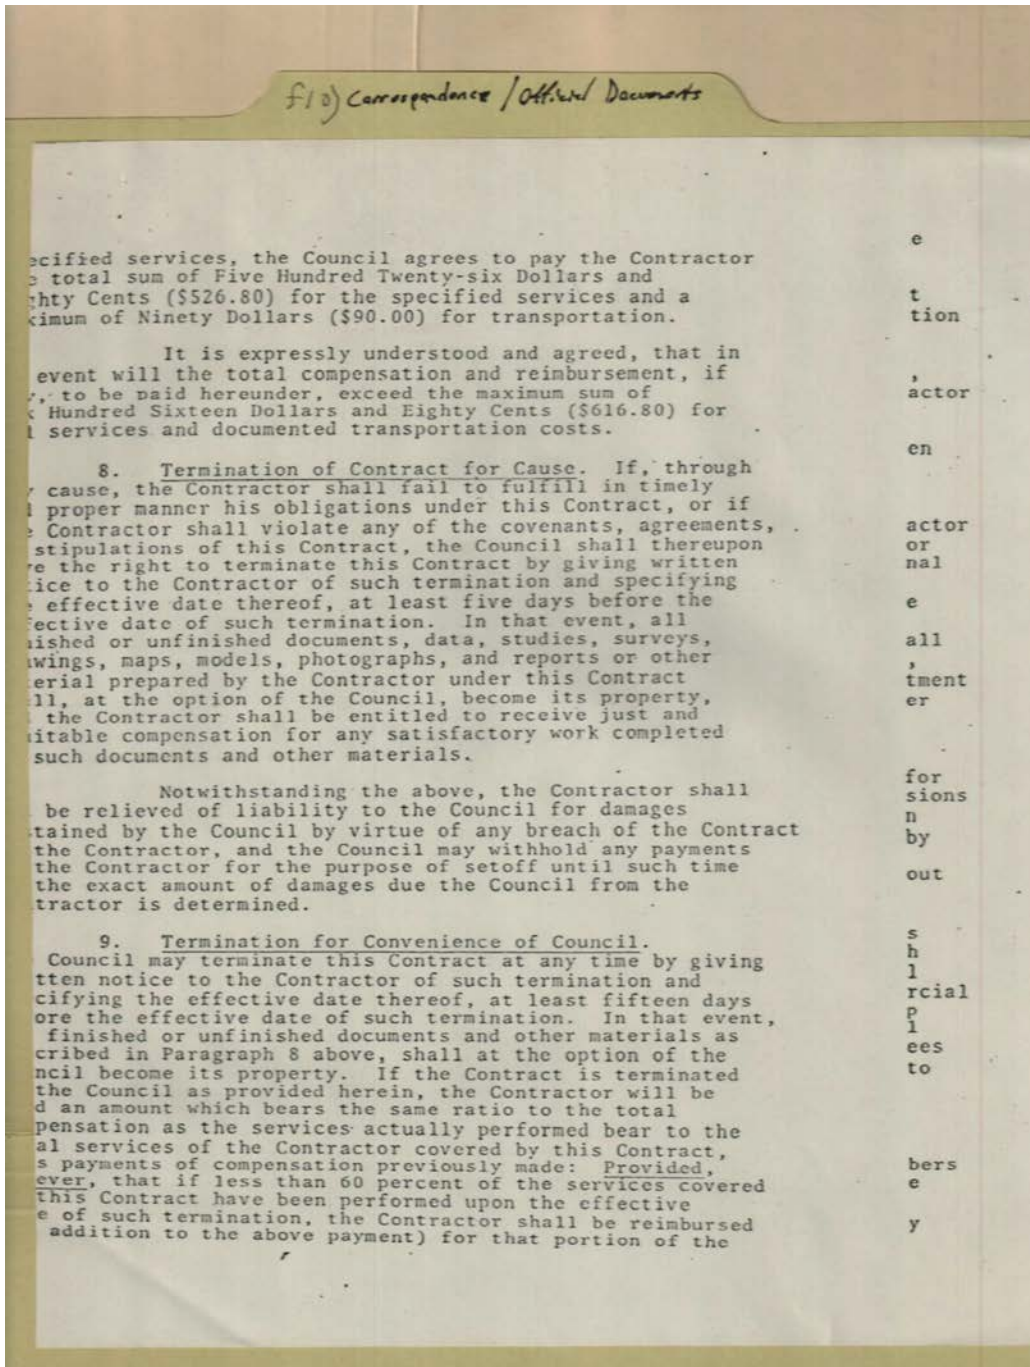

5. Time of Performance. The Services of the Contractor are to commence as soon as practicable after the execution of this Contract and shall be undertaken and completed in such sequence as to assure their expeditious completion in the light of the purposes of this Contract, but in any event all of the services required hereunder shall be completed within 143 consecutive calendar days from the date of this Contract.

6. Compensation. The Council agrees to pay the Contractor the total sum of Five Hundred Twenty-six Dollars and Eighty Cents (\$526.80) for the specified services. In addition to the compensation provided above, the Council will reimburse the Contractor for travel in connection with the performance of the duties under this Contract, as may be authorized by the Council or the sum of ten cents per mile if the travel is performed by privately owned automobile, and not to exceed Ninety Dollars (\$90.00). The Contractor agrees to keep a record of expenses for travel which shall be open to inspection by the Council. The Council, however, shall not be liable for any damages arising out of the use of private vehicles, and the Contractor shall hold the Council free from and fully indemnify the Council from such liability.

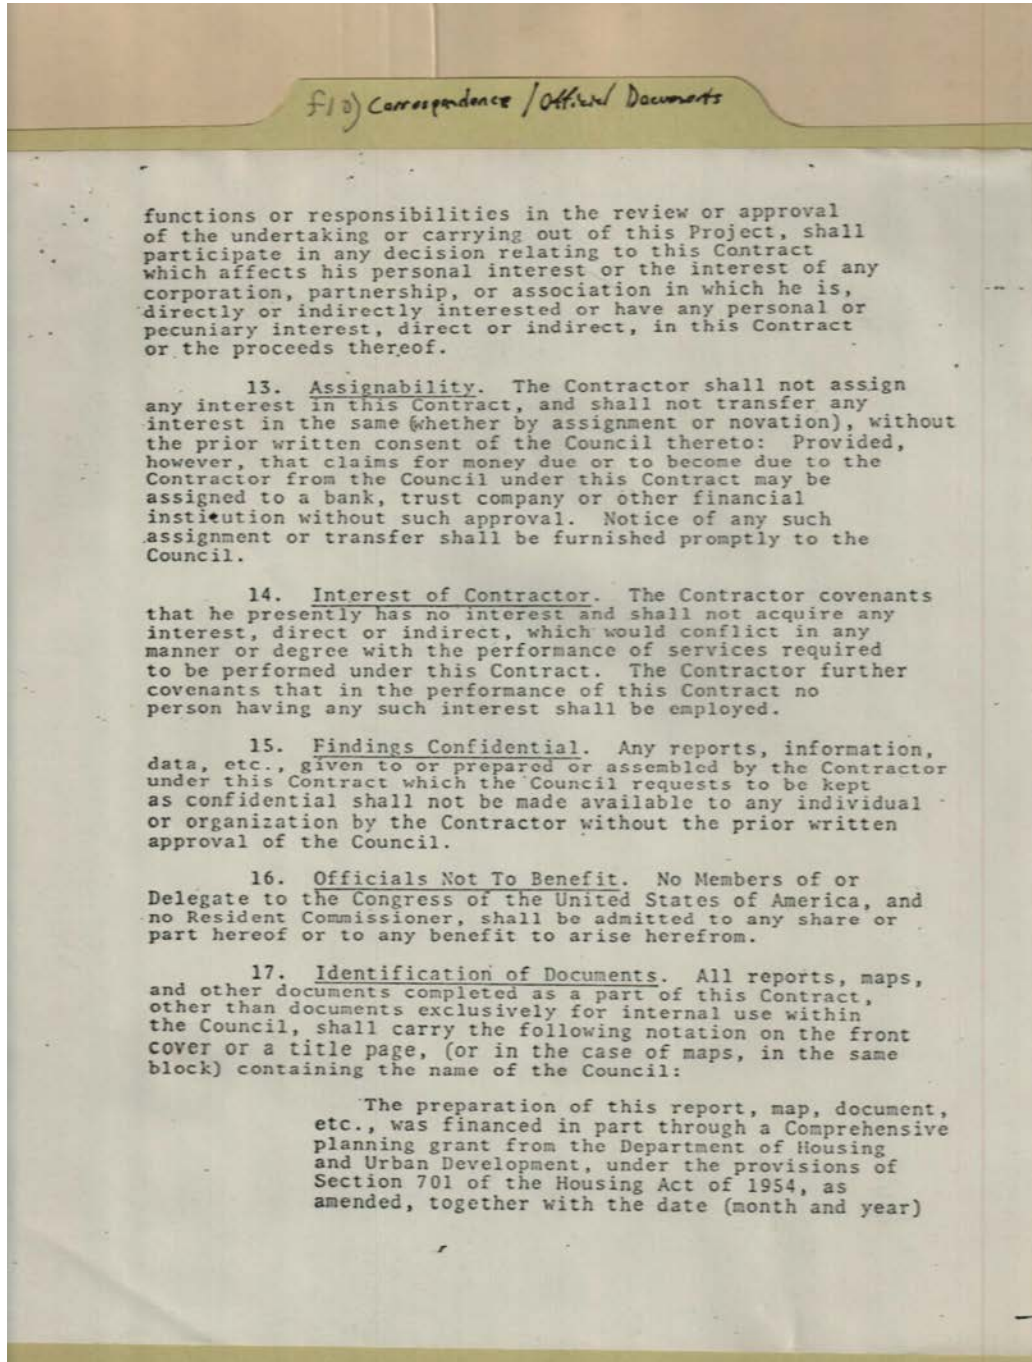

7. Method of Payment. At the completion of the

in the selection of building, structures, districts and sites (herein called places) for the Field Surveyors to cover.

- c. The Contractor shall spend a minimum of twelve hours on the preparation and presentation of an orientation - training session for the Field Surveyors and Historical Research Coordinators.
 - d. The Contractor shall spend a minimum of one hour preparing forms for use by the Field Surveyor and he shall assist in the preparation of forms to be used by the Historical Research Coordinator.
 - e. The Contractor shall spend a minimum of three hours developing an architectural rating system.
 - f. The Contractor shall spend a minimum of twenty-two hours reviewing the information on places collected by the Field Surveyors for architectural accuracy and rating these places and others according to his architectural rating system.
 - g. The Contractor shall spend a minimum of one hour assisting the Professional Historian in the selection of places for study by the Historical Research Coordinators.
 - h. The Contractor shall spend a minimum of five hours reviewing the information turned in by the Historical Research Coordinators.
 - i. The Contractor shall spend a minimum of sixty-four hours completing the architectural information needed on at least 45 National Register of Historical Places Nomination Forms. Of the forty-five, fifteen are to be done in great detail (stress is to be placed on the first fifteen of the forty-five).
 - j. The Contractor shall spend a minimum of twenty-four hours writing the architectural portion of the Historical - Architectural Survey.
4. Data To Be Furnished to Contractor. All information, data, reports, records, and maps as are existing

Types:

contract

f10) Correspondence / Official Documents

and available from the Council shall be furnished to the Contractor without charge, and the Council shall cooperate with the Contractor in every way possible in the carrying out of the planning work.

5. Time of Performance. The services of the Contractor are to commence as soon as practicable after the execution of this Contract and shall be undertaken and completed in such sequence as to assure their expeditious completion in the light of the purposes of this Contract, but in any event, all of the services required hereunder, shall be completed within 172 consecutive calendar days from the date of this Contract.

6. Compensation. The Council agrees to pay the Contractor the total sum of Two Thousand Seven Hundred Dollars (\$2,700.00) for the above services. No reimbursement for travel nor other expenses will be made to the Contractor.

7. Method of Payment. The Contractor shall be paid Two Thousand Seven Hundred Dollars (\$2,700.00) at the completion of the previously specified services.

It is expressly understood and agreed that in no event will the total compensation and reimbursement, if any, to be paid hereunder, exceed the maximum sum of Two Thousand Seven Hundred Dollars (\$2,700.00) for all of the services required.

8. Termination of Contract for Cause. If, through any cause, the Contractor shall fail to fulfill in a timely and proper manner, his obligations under this Contract, or if the Contractor shall violate any of the covenants, agreements, or stipulations of this Contract, the Council shall thereupon have the right to terminate this Contract by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the Contractor under this Contract shall, at the option of the Council, become its property, and the Contractor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Notwithstanding the above, the Contractor shall not be relieved of liability to the Council for damages sustained by the Council by virtue of any breach of the Contract by the Contractor, and the Council may withhold any payments to the Contractor for the purpose of setoff until such time as the exact amount of damages due the Council from the Contractor is determined.

Types:

contract

f10) Correspondence / Official Documents

9. Termination for Convenience of Council.

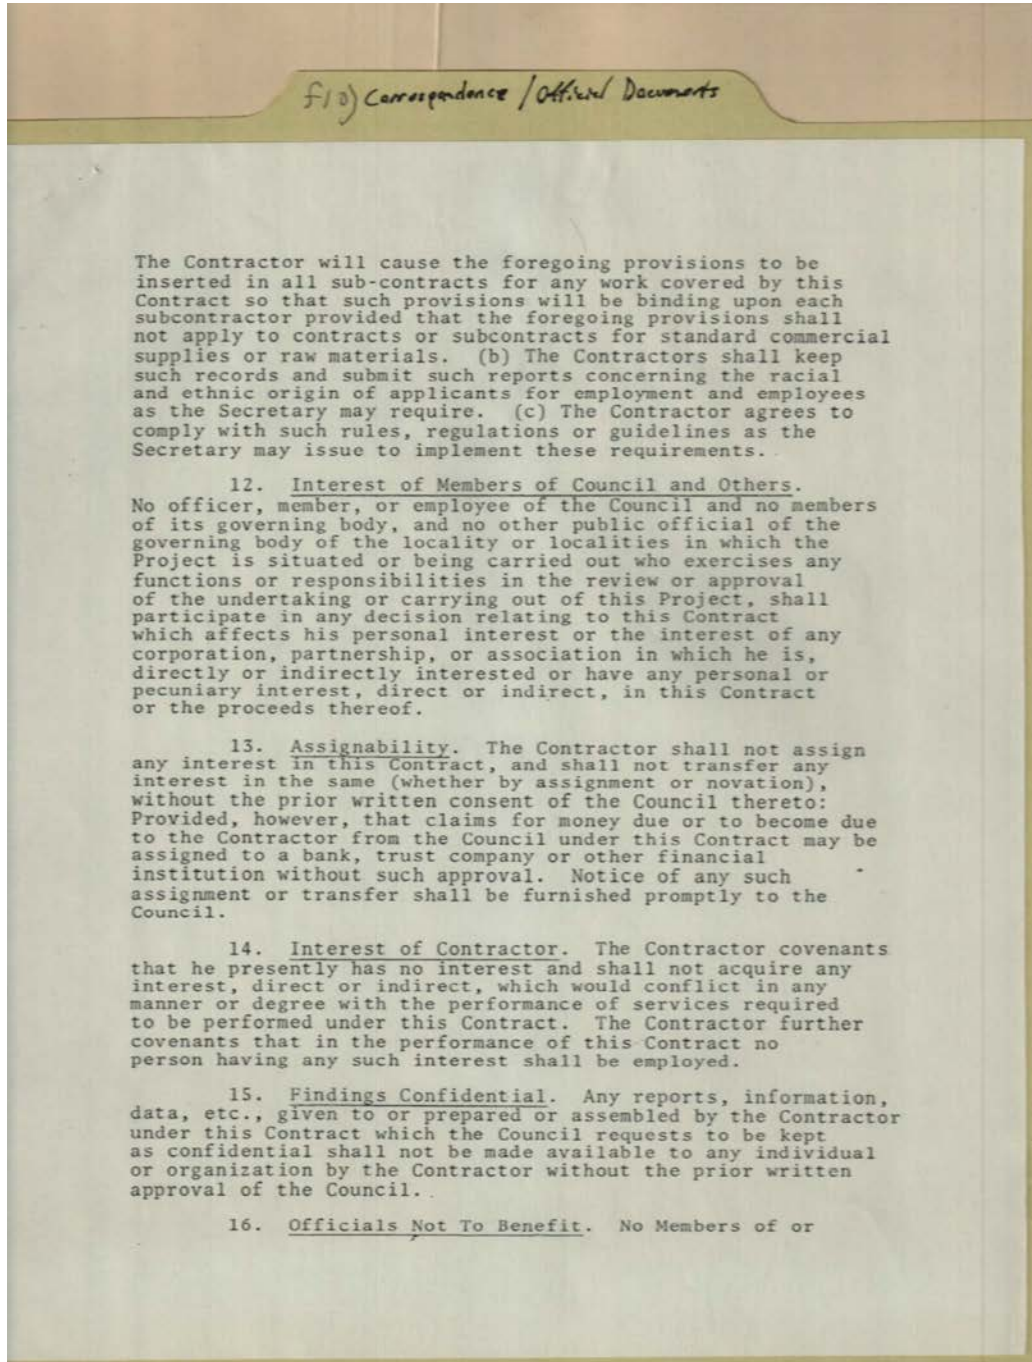

The Council may terminate this Contract at any time by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least fifteen days before the effective date of such termination. In that event, all finished or unfinished documents and other materials as described in Paragraph 8 above, shall at the option of the Council become its property. If the Contract is terminated by the Council as provided herein, the Contractor will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Contractor covered by this Contract, less payments of compensation previously made: Provided, however, that if less than 60 percent of the services covered by this Contract have been performed upon the effective date of such termination, the Contractor shall be reimbursed (in addition to the above payment) for that portion of the actual out-of-pocket expenses (not otherwise reimbursed under this Contract) incurred by the Contractor during the Contract period which are directly attributable to the uncompleted portion of the services covered by this Contract. If this Contract is terminated due to the fault of the Contractor, Paragraph 8 hereof relative to termination shall apply.

10. Changes. The Council may, from time to time, require changes in the scope of the services of the Contractor to be performed hereunder. Such changes, including any increase or decrease in the amount of the Contractor's compensation, which are mutually agreed upon by and between the Council and the Contractor, shall be incorporated in written amendments to this Contract.

11. Equal Employment Opportunity. (a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin. The Contractor shall take affirmative action to ensure that applicants are employed and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such actions shall include, but not be limited to the following: employment, upgrading, demotions, or transfers, recruitment or recruitment advertising; layoffs or terminations; rates of pay or other forms of compensation; selection for training including apprenticeship; and participation in recreational and educational activities. The Contractor agrees to post in conspicuous places available to employees and applicants for employment notices to be provided setting forth the provisions of this non-discrimination clause. The Contractor will in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin.

III. ARCHITECTURAL AND SITE SURVEY--FIELD SURVEY (cont.)

The main value of the comprehensive survey is to turn up more modest structures and more recent structures. Existing recognized structures generally include primarily larger and pretentious structures and structures not later than 1860. This sometimes misses such items as a very beautiful 1820 two-story log house with beaded exposed 7' high beamed ceilings, known to the writer. Also, there is a small country church, which is probably circa 1830, recently discovered on a Sunday drive and unrecognized previously. There are buildings of 1860-1930 and of excellent design quality, which ought to be recognized and located now.

- B. Snapshots from existing data and field survey are to be reviewed by an architect knowledgeable of various local periods and styles. Selected buildings of more than ordinary interest would be revisited for more detailed study, research, and documentation. Based on this, buildings of great interest would be nominated to the State and/or National Register of Historic Places.
- C. Data concerning historic events, sites, and persons would be reviewed jointly by a qualified historian and an architect, and the same process used as above to select nominations to registers.
- D. All the above collected data, whether or not of a nominated structure, would be preserved in the State Archives and in local libraries or other proper local archives. Material and buildings, which seem to be of little importance now invariably become very important in 50 to 100 years. If we don't save it now, it won't be there when it has reached importance.

"Windshield survey" and initial snapshots could, perhaps, be done by amateurs with a 4 to 8 hour "crash course" in architectural history. An architect could give them a "final exam" by riding down a few miles of road with them to see what they do. The basic rule should be, "if in doubt, photograph it." If this method proved unsatisfactory, a more limited survey would have to be done since no architect could afford to devote the many hours required to personally do a comprehensive survey. (There are probably several thousand miles of 50-year-old roads and streets involved.) This method will overlook some worthy items, but a completely comprehensive survey would require an enormous expenditure of time. It should turn up many items not yet recognized.

Types:
outline

f10) Correspondence / Official Documents

PERSONNEL:

Director--Proficient in historical research, organization, and management. Would work under the direction of the Historian and Architect and perform day-to-day management of the survey as well as perform research under direction.

Historian--Professional historian, who is knowledgeable of north-east Alabama history. Would direct the project, critically analyze the results, and obtain consultation from other historians as appropriate.

Architect--Knowledgeable of the various historical styles from 1800 through the present and their northeast Alabama particulars. Would train the surveyors, analyze their photographs and descriptions, obtain follow-up or in-depth data based on the analyses, analyze existing data, and assist with nominations for the National Register of Historic Places.

Geologist--Consultant

Archaeologist--Consultant

County Historians (5)--Knowledgeable professional or amateur in each county, who are familiar with the history, sites and structures of their counties; and who know various individuals and sources in their counties for obtaining further information.

Survey Team Members--Preferable graduates or advanced students in the field of history or architecture. They would receive several hours of instruction from the historian and the architect to assist them in the survey work. They would work in teams of two with the less-qualified person driving. The other team member would "watch and photograph." The basic rule would be, "if in doubt, photograph and record." The teams would also watch for significant structures or sites, which may not be known to the historians in addition to covering items as directed by the historians.

Typist--Could be from present T.A.R.C.O.G. staff

Photographer--Needed only for structures or sites to be nominated for the National Register of Historic Places. All other photography can be 35 mm. 3 x 5 black and white and performed by the survey teams and by the architect on selected structures.

Types:
outline

f10) Correspondence / Official Documents

POSSIBLE TIME AND EXPENDITURES: To substantially accomplish the five-county T.A.R.C.O.G. Historical Survey.

Note: This is a research effort covering several thousand miles of roads and, perhaps, 100,000 structures and sites. It is not possible to accurately predict the hours needed. It is certainly not feasible to do a completely comprehensive and in-depth survey in the hours listed below. The raw data from the survey will inevitably contain material that is superficial and even inaccurate, and it is possible that some items of interest will be missed in the survey. It must be considered as raw data and nothing more. The raw data should turn up sites and structures that bear in-depth investigation by professionals) priority item 5, 6, & 7). The data should then catalogued and preserved for use in other historical efforts.

The hours listed should result in a significant accomplishment in the field of Historic Surveys and preservation.

	<u>Probable Cost/Hr. Rate</u>	
Director-----	\$4/hr.	Full time
Historian-----	\$20/hr.	} Part time Consultants
County Historian-----	\$5/hr.	
Architect-----	\$20/hr.

LIMESTONE COUNTY

Belle Mina was built by Thomas Bibb, noted state Senator and Representative for second Governor of Alabama. The architectural style of Belle Mina follows the general form suggested by the Richmond Capitol of Virginia, Bibb's native state.

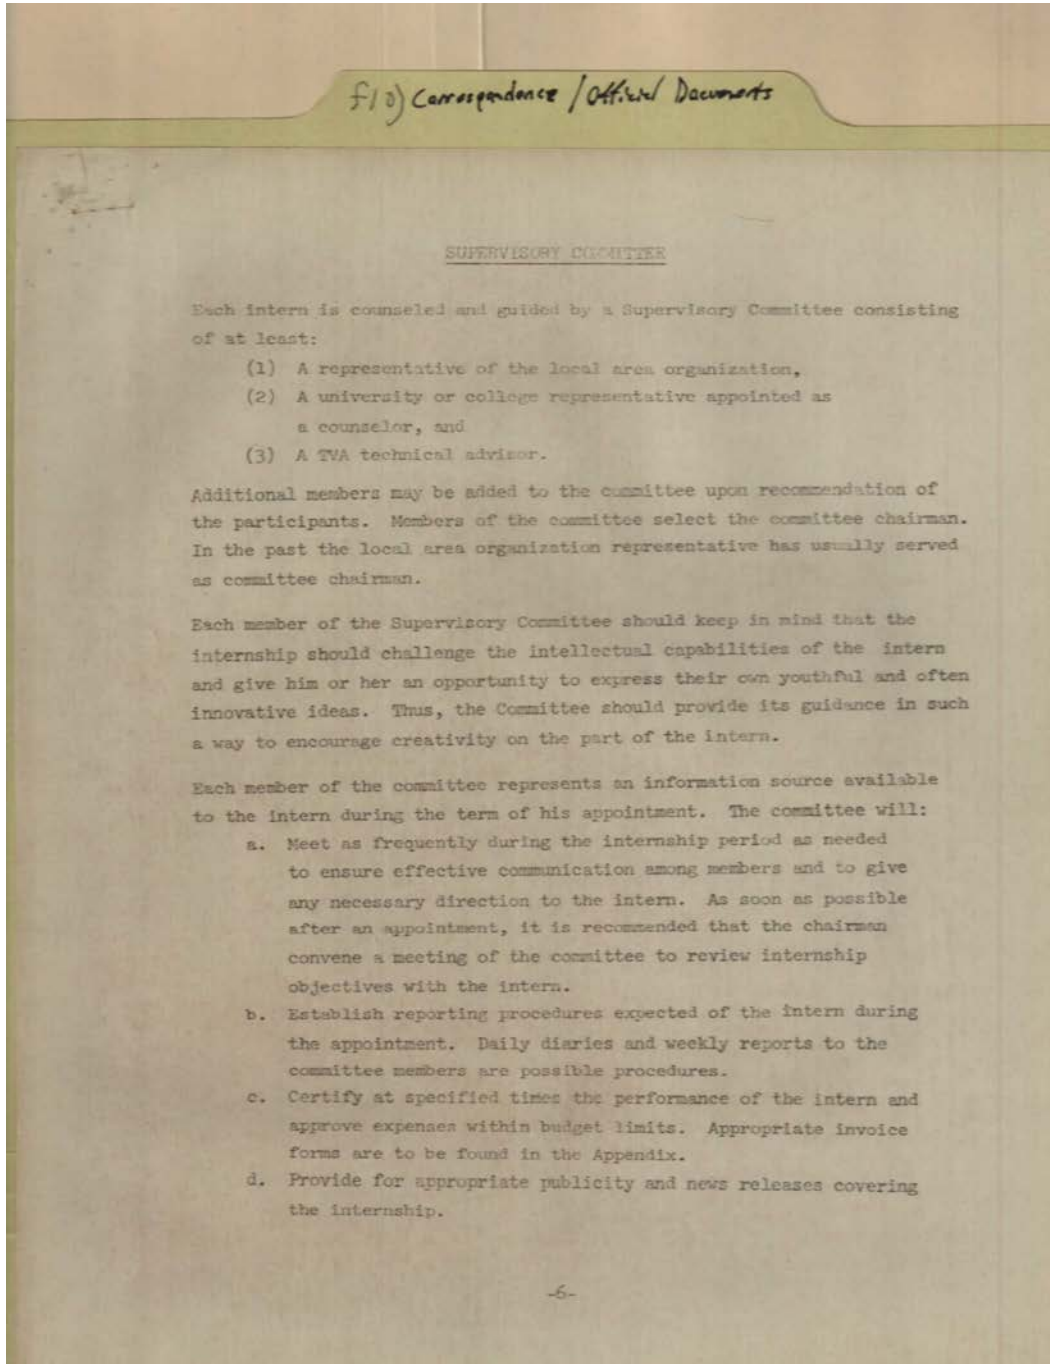

Mooreville was one of the first incorporated towns in Alabama. It has remained virtually unchanged for a century. The homes range from small sheds and cottages to mansion type structures. Most of the homes are white frame and have white picket fences. There are two ante-bellum churches. The post office still uses the original wooden call boxes. During the late 1820's or early 1830's, Andrew Johnson, the 17th President of the United States, spent several weeks in Mooreville.

f/10) Correspondence / Official Documents

- e. Review the intern's draft final report, advise the intern of changes needed, and after the modifications have been made report to TVA the committee's acceptance of the draft final report.
- f. Call to the attention of the Office of Tributary Area Development any special or unusual situation which the committee feels is beyond its power to handle.

Area Representative

In addition to serving on the committee, the representative of the tributary area organization will:

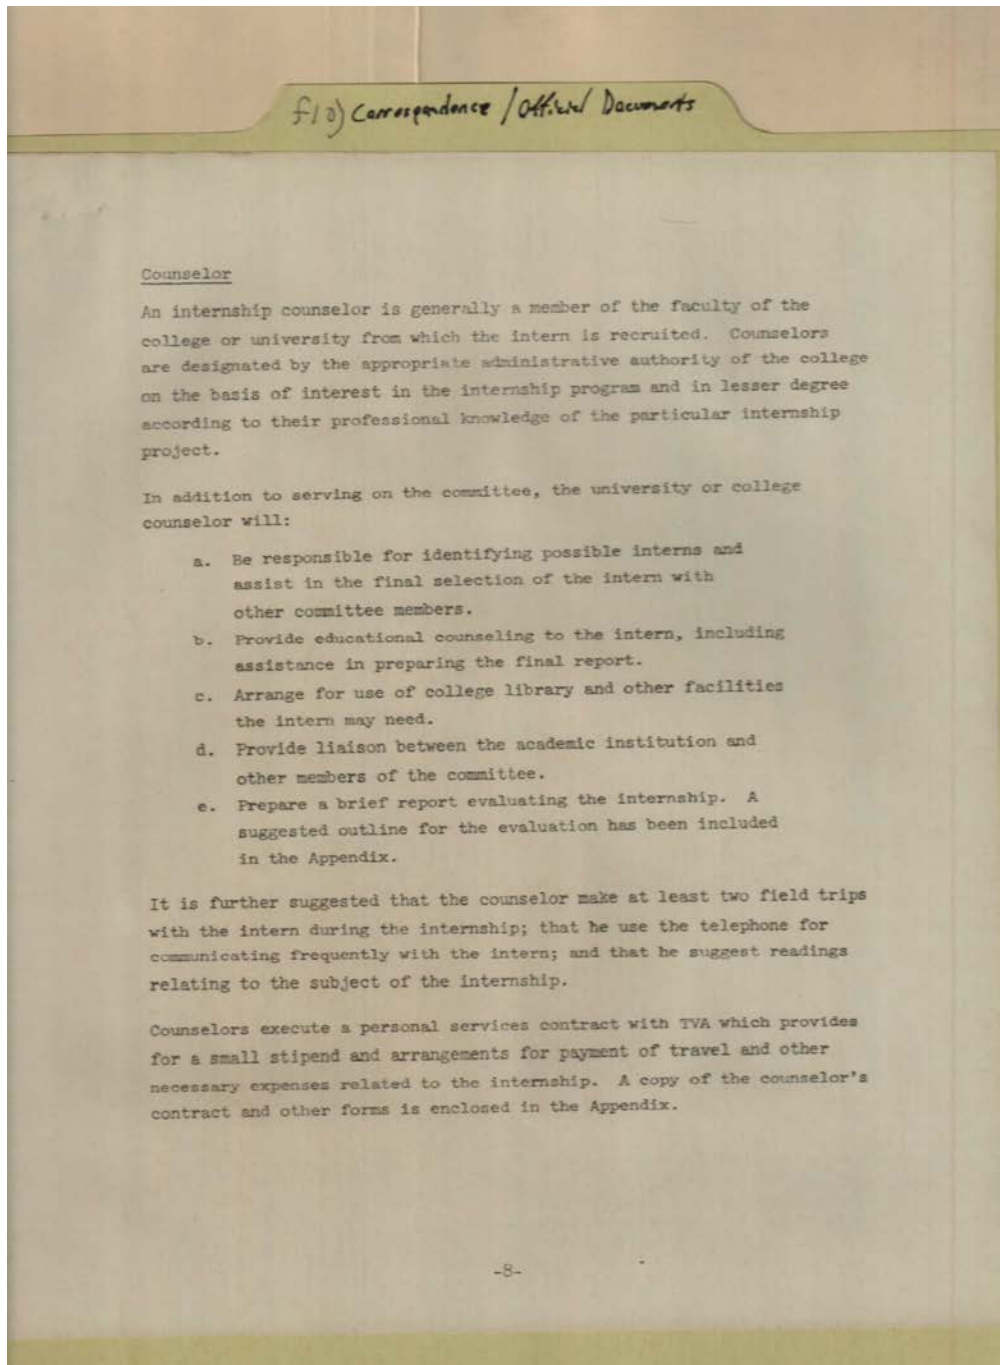

- a. Help the intern as much as possible in establishing efficient living and working arrangements.
- b. Provide necessary day-to-day supervision of the intern's activities.
- c. Assist the intern and committee members in understanding the objectives and actions of the sponsoring and host organizations.
- d. Arrange meetings between the intern and officials of area governments, schools, industries, and other groups which may be interested in the internship.
- e. Be responsible for distributing copies of the published internship report to interested organizations and individuals within the tributary area.

Technical Advisor

In addition to serving on the committee, the TVA technical advisor will:

- a. Provide technical assistance in formulating plans for the internship.
- b. Be available for consultation with the intern at specified times or as requested by the intern during the course of the internship.

Types:
outline

f10) Correspondence / Official Documents

FINAL REPORT PREPARATION

Purpose and Scope of Guidelines

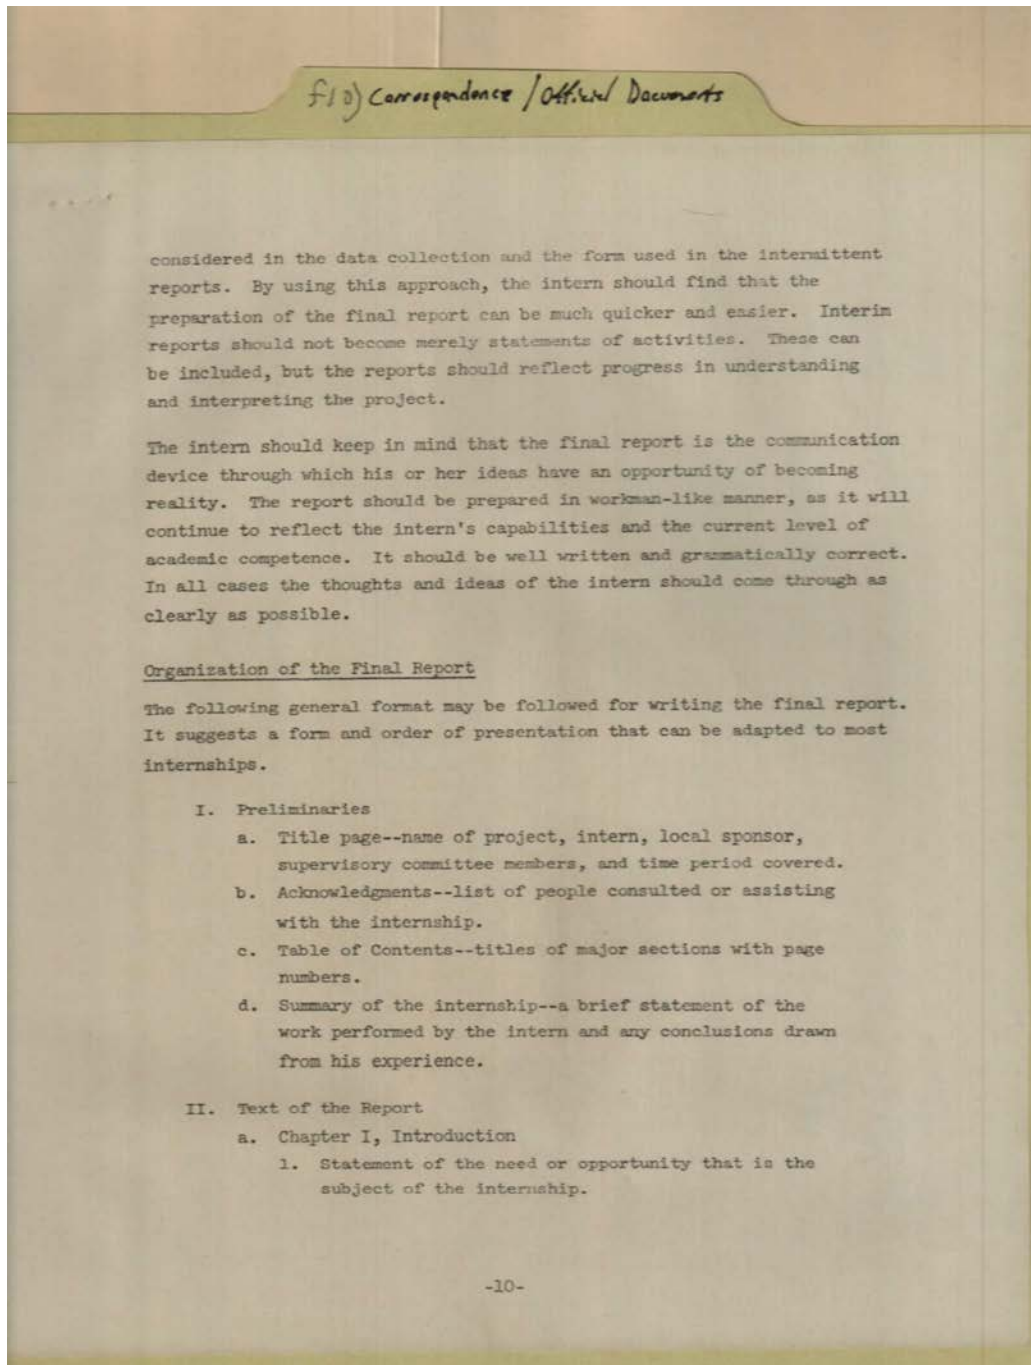

A report is to be prepared by the intern as an integral part of the internship. This report is prepared under the guidance of the Supervisory Committee and is required under the terms of the internship contract. In some cases, it may also serve as a course requirement of the college or university. The following suggestions should be helpful in recording information, organizing data, and writing the report. Since the areas of investigation covered by interns vary greatly, not all of the suggestions apply in any one case. However, these suggestions should be considered as guidelines.

General Suggestions

Although the writing of the final report is the last activity of the internship, the report should be planned from the beginning of the work. The content and structure of a good report are related directly to the nature and scope of the study and to the methods used in gathering, recording, and interpreting data. The scope, i.e., geographic area and objectives of the internship should be clearly defined. The methods used in pursuing the internship should be accurately recorded.

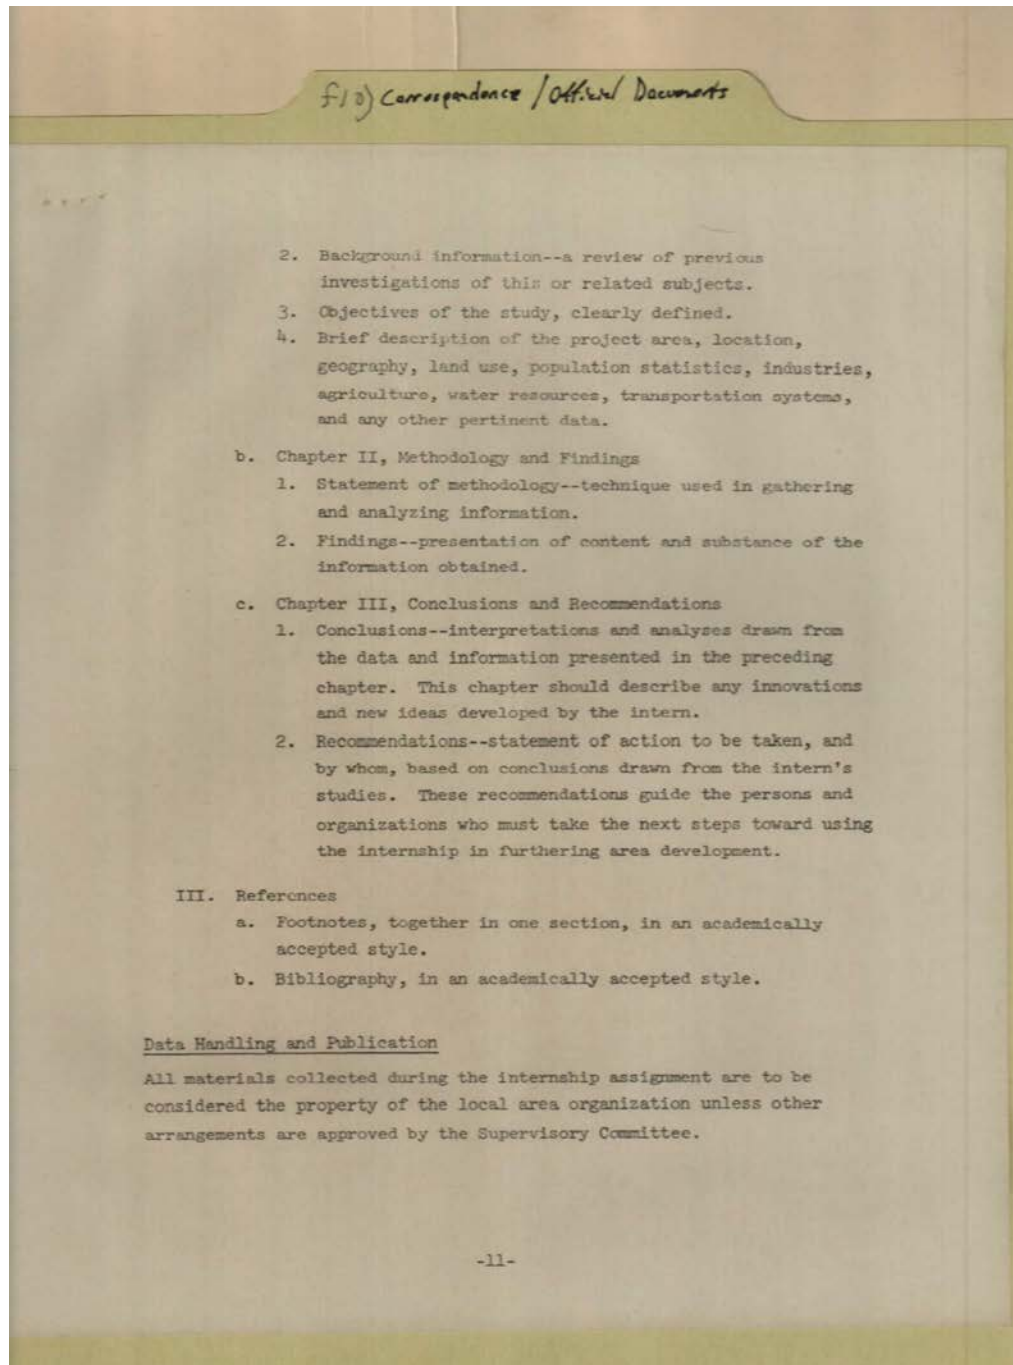

A substantial amount of the internship period will be spent gathering data from observation, consultations, discussions, and personal interviews; and from books, articles, and reports. The intern may use one or all of these approaches, but the personal interview will probably constitute a chief source of information. Whatever the source, it should be accurately recorded. Titles of persons interviewed are important and should be noted. All information should be written in a field notebook--it is not wise to rely solely on memory. A procedure often found helpful by investigators is transferring the field notes to cards, which can be filed by topic.

Frances Cabaniss Roberts Collection

Preferred Citation: Frances Cabaniss Roberts Collection, Archives and Special Collections, M. Louis Salmon Library, University of Alabama in Huntsville, Huntsville, AL.

Collection Scope and Content: The Collection of 114 Linear ft. includes a total of 156 Archival Boxes. The Frances Cabaniss Roberts collection covers the historical records of the Cabaniss Roberts family. This collection contains extensive correspondence records of the Cabaniss Roberts family circa 1830 to 1930.

Archives/Special Collections Access Restrictions: None

Conditions Governing Use: This material may be protected under U. S. Copyright Law (Title 17, U.S. Code) which governs the making of photocopies or reproductions of copyrighted materials. You may use the digitized material for private study, scholarship, or research. Though the University of Alabama in Huntsville Archives and Special Collections has physical ownership of the material in its collections, in some cases we may not own the copyright to the material. It is the patron's obligation to determine and satisfy copyright restrictions when publishing or otherwise distributing materials found in our collections.

Provenance: Gift of Johanna Shields on October 28, 2006.
