January 14th 1993

Dear Harvie:

I have offered to pay the cost of restoring the front door and rebuilding the porch at 210 West Harris Street. The original rectangular transom was replaced with an English Georgian fanlight about fifteen years ago.

Would you please draw up an entrance with a rectangular transom similar to the Infill House One and a new front porch similar in design to the Infill House One but with more slender proportions to the columns and slightly narrower width to the porch itself. To give an idea of what I have in mind I've stuck a copy of the porch of Infill House Two on top of a scaled xerox of 210 West Harris. (The porch I want you to draw, of course, has pillars, not Tuscan columns.)

Please draw this for Beehive Foundation, then PLEASE SEND TWO COPIES OF YOUR DRAWINGS TO BETTY ANN LICHNER WITH A COPY OF THIS LETTER. THAT COPY WILL INSTRUCT HER TO DELIVER ONE SET OF THE DRAWINGS, WITH MY COMPLIMENTS, TO MR. AND MRS. JOHN WILLIAMS, 201 WEST JONES STREET, SAVANNAH.

Thanks so much,

Mills Lane
