

MAY 4 1967

NOTE TO DR. MUELLER

I have prepared direction to formally designate AS-501 as Apollo 4, 204/LM-1 as Apollo 5 and AS-502 as Apollo 6. I think it is the right time to start using these designations in official releases and appropriate internal documentation. As you are probably aware, some of the press has already started to use this type of numerical designation. Do you concur?

Samuel C. Phillips
Major General, USAF
