MSFC SPECIFICATIONS, STANDARDS AND PROCEDURES

MICROFICHE REFERENCE FILE INDEX

Published by:

Documentation Repository Branch

Management Services Office

George C. Marshall Space Flight Center

Prepared by:

RCA Service Company

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

INTRODUCTION

This reference file has been prepared in order to identify data contained on microfiche in the MS-D Repository.

This index is divided into three sections. Section I - MSFC Specifications, Section II - MSFC Standards, and Section III - MSFC Procedures.

This listing will be kept up-to-date and will be published monthly.

REPORT LEGEND

1. Document number - Numeric identification. Includes Amendments, Supplements, and Engineering Orders.
2. Slash Sheet - An abbreviated means of specifying requirements by referring to a general specification or standard. This is a separate document used to form a part of a basic document.
3. Dash Number - Used to identify Qualified Products List.
4. Revision Code - Alpha character denoting latest revision.
5. Title - Abbreviated noun description.
6. Date - Date of listed document.
