It appears that we can't get this thing exactly right. Dr. von Braun put the wrong date on this re-typed release. You will see that he gave it the current date rather than the original date of 30 July 1964. I hope that it is still acceptable. I apologize for this, but he took the package home with him last night to sign, since he is leaving today for West Coast for a week, and I was not there to give him proper instructions verbally. Sometimes he doesn't read my notes too well.

Sincerely,

Bonnie Holmes
