Dear Mr. Horn:

The University of Alabama Research Institute has been awarded a NASA contract (NAS8-21321) to perform a comprehensive history of the Saturn program.

In connection with this effort, we would appreciate receiving a copy of the following papers:

- (1) "Application of an 'Iterative Guidance Mode' to a Lunar Landing," May 1963
- (2) "A Simplified Optimization Method and Its Application to Lunar Landing Guidance," January 1963
- (3) "The Iterative Guidance Law for Saturn," June 1965

Thank you very much for your assistance.

Yours very truly,

David L. Christensen  
Research Associate
