EXECUTIVE OFFICE OF THE PRESIDENT

July 17, 1968

Dear Professor Logsdon:

Attached as you requested is a copy of the PSAC Man-in-Space Panel Report of 1960. You may quote it in your dissertation if you so desire. However, I would like to note that the expenditures estimated in the report were not just those of the manned flight directly but included all of the associated programs such as the unmanned program which would be required to carry out and support the mission.

Sincerely yours,
