My dear Mrs Grosser:

I am in receipt of your recent letter with reference to Miss Nora Davis trying to make trouble about certain work that was done at the cemetery. I was afraid at the time that she might show an ugly spirit and did not particularly care to have this work done until you and your mother impressed me that something should be done.

Experience has taught me that the less I have to do with Miss Nora the better, and for that reason I would not care to have anything whatever to say to her, and I think if you will adopt the same plan that she will let you alone.

Respectfully,

MHL/T.
