

KIDDIE FLYER HAND CAR RIDE

U. S. Patent No. 162092

N. A. A. P. P. B. Award Winner

These highly attractive cars are manually operated by the children themselves at the speed they desire. Each car is accurately machined and of oil sealed-ball bearing construction to eliminate as much friction as possible and make the cars very easy to operate even for the smallest kiddies. Hand Cars are a very popular ride and it is one of the most profitable of all the Kiddie Rides to operate.

Each ride consists of 6 Kiddie Flyer Hand Cars and your choice of track layouts: either 322 ft. track or track layout with switches which requires area of 36 ft.x56 ft. for operation.

Shipping Weight with 322 Ft. Track Approximately 2400 lbs.

Track Layout with Switches Approximately 2000 lbs.

DeLuxe Model Ride (Trucks finished in chrome) **\$2250.00**

Standard Model Ride (Trucks painted) **\$1950.00** at Factory
