IMPORTANT

On All Orders and Shipments

CUSTOMER

Please be sure your name and address is plain and complete as possible on all orders or letters. If you have recently bought a second-hand Tilt-A-Whirl give us the Factory Serial Number if possible or tell us the name of the previous owner so we can trace back and determine the Number and Year Model. If you operate more than one Tilt-A-Whirl we will need to know the particular one which the parts are for if you have different year models.

WANTS WHAT

Please refer to parts listed and illustrations on the following pages and then list plainly the definite quantity wanted, the Part Number and description used. If you wire in your order, the quantity and Part Number is sufficient in most cases. Parts not found listed can be furnished by giving us a complete and exact description of the part needed. We will quote delivery date and price promptly if we cannot ship immediately.

WHEN

State on your order if you desire quick shipment, ordinary service, or shipment at a definite future time. Are parts wanted for immediate use or for spares? If we cannot fill your order completely as ordered we make partial shipment and send the remaining items on a back order, unless we have definite other instructions.

WHERE

Specify clearly the name of the city and the state where delivery is wanted. Please allow sufficient time for the shipment to reach you there if you are on the road. If delivery is delayed and you leave the city before the shipment arrives then leave a forwarding address with the Express Agent or Postmaster or Freight Agent, whatever the case may be.

Road Shows please give your routing for two or three weeks, if possible, when placing orders. We can then give you best service on delayed shipments and Back Orders, and keep in touch with you.

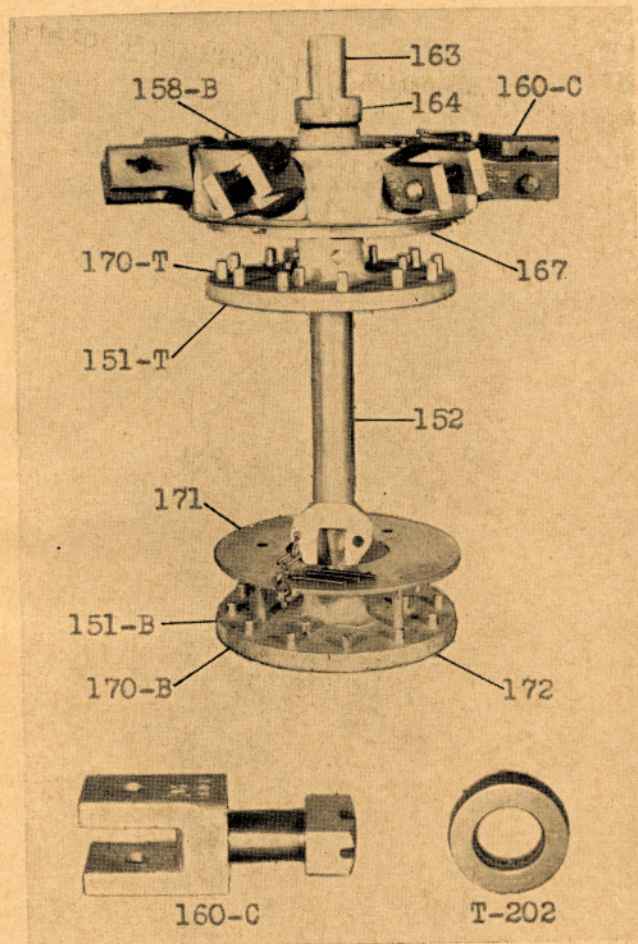

HOW

We will be glad to follow your shipping instructions in regard to transportation service but if no preference is indicated we will use our best judgment and endeavor to ship the best way.

PRICE AND TERMS

All prices quoted in this list are effective as of March 1st, 1960 and are net F. O. B. Faribault, Minn., and replace those in all previous lists. They are subject to change in whole or in part without notice being given, should conditions warrant it. All orders are sent C.O.D. unless pre-arranged otherwise. Save C.O.D. charges by enclosing full payment with order.
