Middletown, Ohio

Park Owner and Manager:

Get Set for "1961" - Install a new Streco Turnpike Ride! Make more money in 1961!

You need new appeal, new zip, new rides for your park in 1961, and the Streco Turnpike Cruiser Ride gives you all of this. It brings your park out of the average class into the progressive class. Your customers will prove this. Our engineers are available at anytime to assist you in track layout, draw plans, furnish drawings, work out station control details, etc. All we need is a sketch of the location with dimensions shown. Send it to us with your instructions as what you need and we will work up a plan.

Three methods are available to you for obtaining Streco Turnpike Cars and station equipment.

- (1) You make an outright purchase of all cars and equipment.
- (2) You purchase on a time payment plan - one fourth upon delivery, the balance in three years.
- (3) You install the track, station, and related equipment. We furnish you the proper number of Cars for 25% of the gross receipts from the Turnpike Ride. You have an option to purchase at the end of any operating season.

In most instances it is advisable for us to visit the site of the installation in order to go over the grounds and to get the dimensions and lay of the ground. For this service, our fee is just what expenses are incurred during the visit.

Streco Turnpike Cars, track design, and station equipment have stood the test. They are now completing their fifth season of operation. Fifteen have been operating from coast to coast - from the Pacific Ocean Park in Los Angeles to Paragon Park in Boston. (A complete list will be furnished upon request.)

Ask any owner or operator about Streco Turnpike Cars or equipment. A letter or phone call will bring you all the information about Streco Turnpike Rides - the ride with greatest appeal to all ages - boys or girls - men or women. The ride that makes you more money!

Decide now to have a Streco Turnpike Ride in 1961.

Very truly yours,
Streifthau Mfg. Co.
Edgar Streifthau
